PREFACE.

The present edition of the Gazetteer and Directory of the Province of Ontario, is presented to the public with the hope that the publishers have been successful in compiling a work which will supply a want long felt by all classes of the community.

The production of a work of this nature necessarily requires an immense amount of labour and research. And the publishers beg to assure their patrons that every exertion on their part has been made to secure accuracy, and to render the work full and complete in all its details. The information is of the latest that could be obtained, and the varied and complete contents of the appendix will doubtless prove of great value.

The publishers have great pleasure in returning their sincere thanks to the numerous friends who have so kindly assisted them by providing information of the greatest value. To the several Postmasters they particularly wish to acknowledge their indebtedness.

THE PUBLISHERS

Entered according to Act of the Parliament of Canada, in the year One Thousand Eight Hundred and Sixty-nine, by C. E. ANDERSON, JOHN ROSS ROBERTSON, and JAMES B. COOK, in the Office of the Minister of Agriculture.

Brantford.—The County Town of Brant, is situated on the Grand River, at the head of navigation and is a station of the Buffalo and Lake Huron Railway. Its name is derived from the celebrated Mohawk Chief, Joseph Brant. The site of the town, 807 acres, was surrendered by the Indians to the Crown, 19th April, 1830, and was surveyed the same year. The Grand River Navigation Canal, commenced in 1840, added materially to the early prosperity of the town, its object was to remove the obstruction caused by the falls on the Grand River; its length is about three miles and it is capable of admitting vessels of three and a-half feet draught to the town. Brantford is situated in the centre of one of the best agricultural sections of the Province, and possesses first-class manufacturing facilities, and having direct railway and water communication with all parts of the Province and the United States, must, at no distant day, become one of the most important towns in the Western Province. Stages to Hamilton and Simcoe. Population 7000. The following are the principal manufacturing establishments:—*Brantford Engine Works*, C. H. Waterous & Co., established 1844, employing 100 hands; steam engines, saw and grist mills, shingle, lath, and stave machines. Steam power 40 horse. *Victoria Foundry*, William Buck, established 1856, employing 80 hands; stoves, ploughs, castings, tin and copper ware, machinery, &c. *Brittania Foundry*, B. & G. Tisdale, established 1851, employs 25 hands; steam power, stoves, &c. *A. Spence*, carriage maker, employs 12 hands. *James Tutt*, planing mill and sash factory, steam power 10 horse employing 35 hands. Money order office and Savings bank.

Chatham—The County Town of Kent, is advantageously situated on the River Thames, at the head of navigation, and is one of the most important towns on the Great Western Railway. Large quantities of grain and farm produce of every description, and stave and square timber, are exported from this place. The Churches are numerous, and handsomely constructed. The Merchants' and the Royal Canadian Banks have each established branches here. Chatham is also noted for its mechanical prosperity. There are three large flouring mills, viz: the Kent, City and Union Mills, two carding and woolen mills, the Chatham machine works of Messrs. Hyslop & Ronald, who manufacture reaping and mowing machines extensively, several other foundry and machine shops, tanneries, breweries and numerous saw mills, the manufacture of lumber is carried on here very extensively. The steamer *Dominion* plies regularly during the season of navigation between Chatham, Windsor and Detroit. Chatham is distant from Toronto, per Great Western Railway, 179 miles, from London 64, and from Hamilton 140. Daily stages to Morpeth, Wallaceburg, St. Thomas and Dresden. Port of Entry. Money order office and Savings' Bank. Population about 5,000.

Fort William.—A Village situated at the mouth of the Kaministoquoi River, in the District of Algoma, access to which is obtained by steamer, distant from Toronto 900 miles. It is noted for its extensive mineral resources. The principal mines are situated at Thunder Bay about 6 miles distant, in which can be found Silver and Copper in good paying quantities, Lead, Iron and Amethysts are also found in the vicinity. Les Pêres Jesuites have a very successful mission here. About two miles above the Fort on the opposite side of the river there is a good Church and 60 or 70 houses, chiefly occupied by half-breeds and Indians, also a good school and resident Priest.

The Hudson's Bay Company have a large farm here and grow oats, barley and all kinds of roots, and there is no doubt wheat can also be raised here; fish are abundant both in the Bay and River.

Guelph.—The County Town of Wellington, situated on the River Speed, a branch of the Grand River, is the Township of Guelph, was laid out by the late Mr. Galt, the projector of the Canada Company, in the year 1828. The situation was well chosen, being in the midst of a fine undulating country, high, dry and healthy. The town is a station of the Grand Trunk and the northern terminus of the Galt and Guelph branch of the Great Western Railway. It is connected with Fergus, Elora, Southampton, Owen Sound, &c., by stage. In the immediate vicinity are inexhaustible quarries of limestone, of which several of the public buildings are constructed. Commercially, Guelph will compare favorably with any inland town in the Province. The chief manufacturing establishments are: *Wellington Foundry*, Evatt, Inglis & Co., steam and water, 40 hands; *Guelph Steam Foundry*, Mills & Melvin, 30 hands; *Guelph Foundry*, Robertson & Sons, steam, 15 hands; *Guelph Mills* (flour and distillery), David Allan, steam and water, 20 hands; *Stewart's Planing Mills*, steam, 12 hands, capacity 600,000 feet per annum. *Raymond's Sewing Machine Factory*, steam, 40 hands, manufacturing 35,000 machines per annum. *Armstrong, McCrae & Co.*, extensively engaged in the manufacture of lamb's wool, hosiery, woolen goods, &c. Distant from Toronto 47 miles, Hamilton 30, Galt 14, and Owen Sound 85. Money Order office and Savings Bank. Population 6000.

Hamilton.—One of the chief Cities of the Province of Ontario, and the judicial seat of the County of Wentworth, is beautifully situated on Burlington Bay, the Western terminus of Lake Ontario. It was laid out in 1812 and occupies a plateau of elevated ground winding round the foot of Burlington Heights, which form the back ground of the City; the distance between the Heights and the Bay is about two miles, and on the area thus included stands, in point of population, wealth and importance, the second City in the Western Province. Burlington Bay is a beautiful sheet of water, navigable in all parts to within a few feet of the shore, forming one of the safest and most commodious harbors on the Lakes There are several lines of Steamers in the summer, plying regularly between the City and Montreal, and intermediate ports. The Great Western Railway, from Suspension Bridge to Windsor, has its offices and machine shops here, and the Company has recently erected extensive rolling mills for the purpose of manufacturing its own rails, employing in the aggregate about one thousand workmen. The head office of the Gore Bank is stationed here, and the Bank of British North America, Montreal, Ontario, Royal Canadian, and Canadian Bank of Commerce, have branches here; some of the largest wholesale an manufacturing establishments in the Province are located here. On the rising ground approaching the mountain are a number of elegant residences with grounds beautifully laid out and tastefully ornamented. The City is well supplied with water and gas. The Desjardines Canal connects Hamilton with Dundas, and has a navigation of about 4 miles in length. This is a port of entry. Post office, Money Order and Savings Bank. Distant from Niagara Falls 45 miles, London, 76 Toronto by rail 39, Windsor 183, and from Montreal 378. Population about 26,000.

ORILLIA EXPOSITOR!

PUBLISHED EVERY FRIDAY MORNING,

At Orillia, North Riding of Simcoe.

OFFICE, 46 THE AVENUE.

P. MURRAY, PROPRIETOR.

THE EXPOSITOR enjoys a larger circulation in North Simcoe, North Ontario and North Victoria, than any other journal, and as its advertising rates are very moderate, it offers rare inducements as an advertising medium.

Job Printing executed with Neatness, Cheapness and Dispatch.

THE STRATHROY DISPATCH

AND

NORTH AND WEST MIDDLESEX ADVOCATE.

ESTABLISHED 1854.

C. H. MACINTOSH, EDITOR AND PROPRIETOR.

THE DISPATCH will be found a valuable medium for the publication of business announcements, being the oldest and most largely circulated journal in the district. Its editorials are uniformly fearless and independent.

PUBLISHED EVERY THURSDAY.

The Job Office is complete in every department. The "Provincial Exhibition Intelligencer and Manufacturing Journal" is also published annually by the subscriber.

C. H. MACINTOSH, Frank Street, Strathroy.

THE DAILY TIMES,

ST. CATHARINES, ONTARIO.

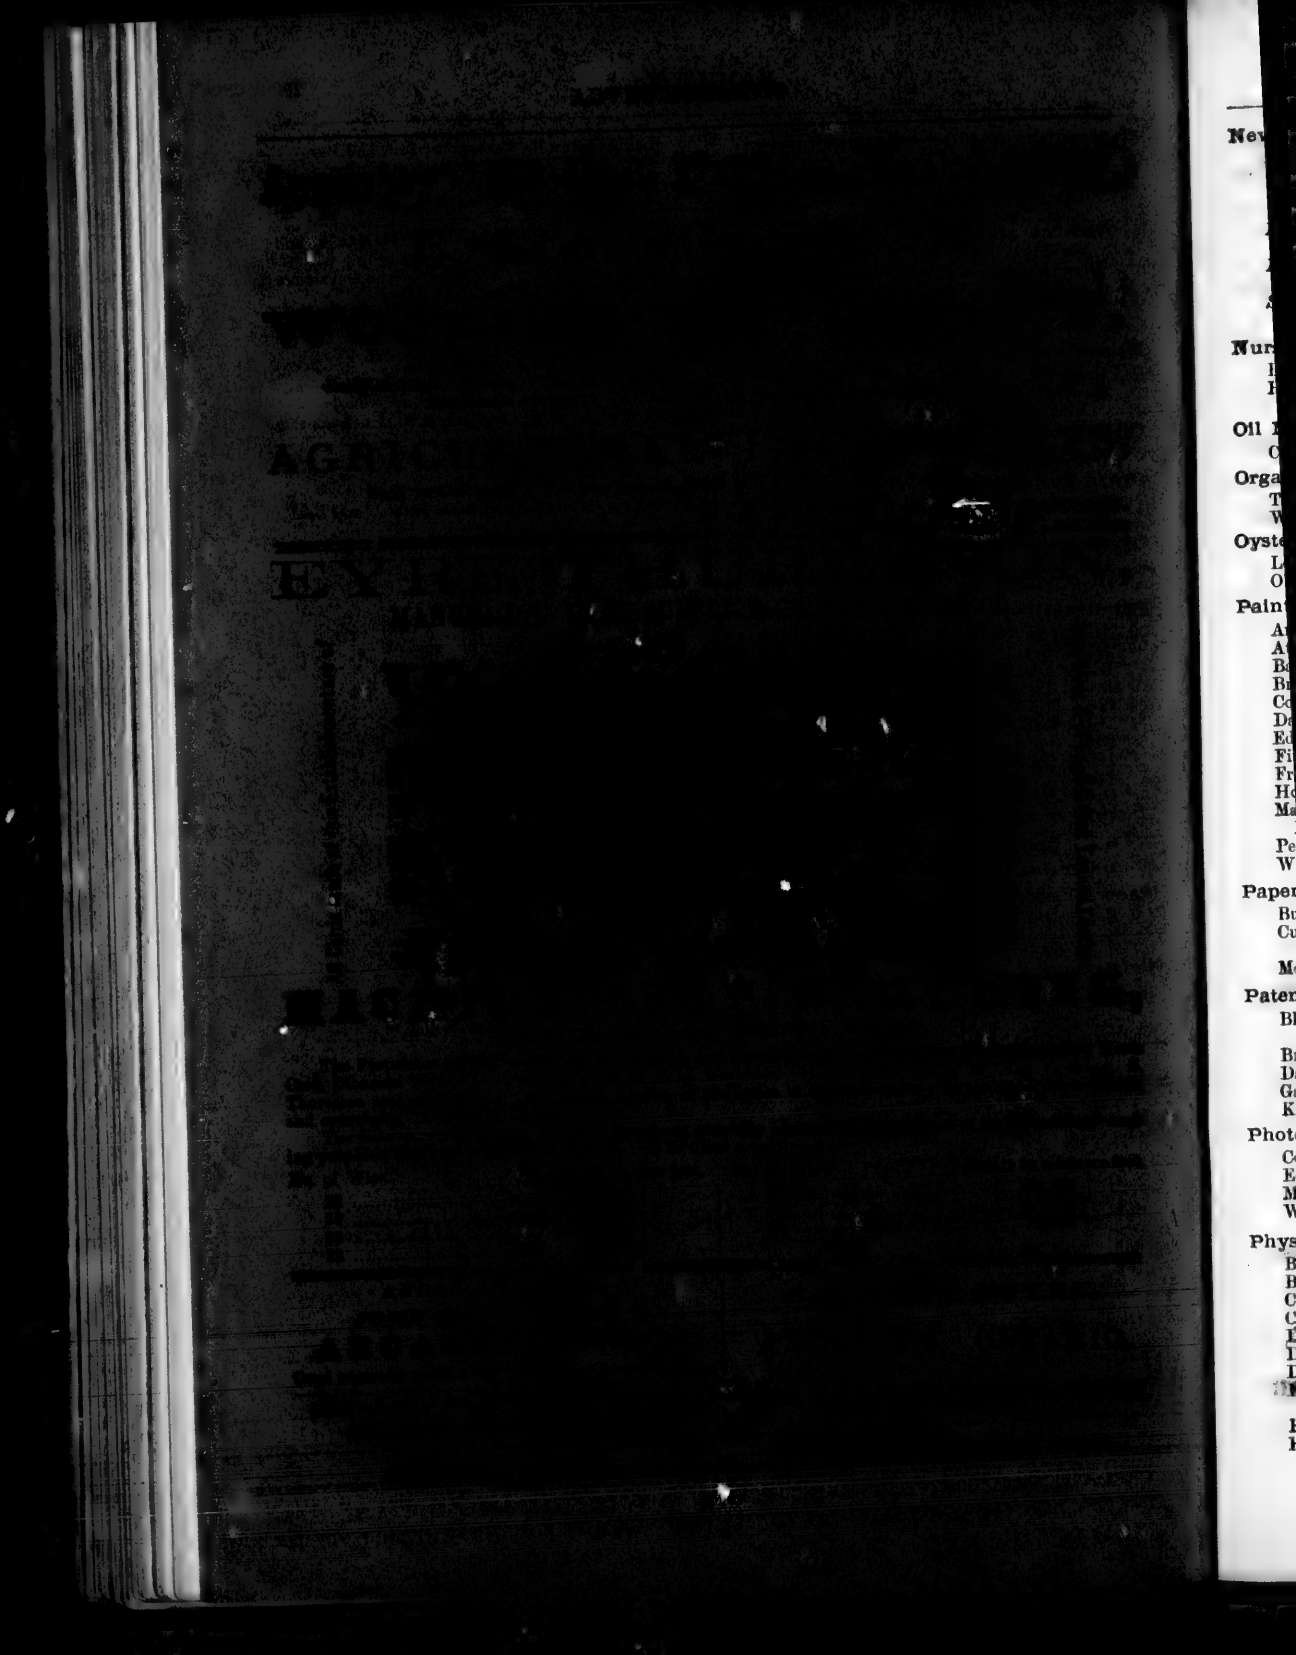

J. FITZGERALD, Publisher and Proprietor,

Has the largest circulation of any paper in the Niagara District.

Papers sent to all the Villages on the Welland Canal and Great Western Railway to Grimsby, making it the greatest ADVERTISING MEDIUM in the District.

JOB WORK OF EVERY DESCRIPTION.

J. FITZGERALD.

Kingston.—The Chief Town of County Frontenac, is situated at the head of the River St. Lawrence, where Lake Ontario, the last link of the chain of the inland seas of Western Canada, together with the Bay of Quinté and the Great Cataraqui Creek, is united with the channel which conveys and empties their waters into the Gulf of St. Lawrence. It is one of the oldest settled localities in Ontario, and occupies the site of the French Fort of Frontenac; was founded in 1784, and incorporated in 1838. Opposite the City are Wolfe Island and Garden Island; and between them and Kingston, a distance of three miles, lies the Bay, a beautiful sheet of water, forming a safe and commodious harbor of every draught. Additional and improved wharves have lately been constructed; which, together with those previously in use, render it in every respect well calculated for an extensive shipping trade. Kingston, at no distant day, promises to be an important manufacturing City. Already the trade of ship building has arrived at great proficiency. Sailing vessels and steamboats of every capacity are here built and fitted out with every requisite, ready for Lake or Ocean navigation. The Marine Railway Company has at different times built and fitted out vessels which have been loaded and sent direct from Kingston to England; and the largest steamboats that now navigate Lake Ontario and the River have been built and furnished with everything necessary at the same establishment. There are two ship building yards in Portsmouth, a flourishing Village within a mile of the limits of the City. The timber necessary for the construction of vessels—oak, pine, cedar, elm, for knees, masts, &c.—is brought from the neighboring Townships; and the iron work, including every description of machinery for steamboats, &c., is furnished by the different foundries in the City. The sail and cordage lofts are kept well supplied; and in short, all the means and appliances for the complete outfit of every sized vessel are always ready at hand. The Grand Trunk Railway passes within two miles of the City; connecting with the City by a branch. As a place of defence, Kingston stands next in strength to Quebec. The batteries of Fort Henry are calculated for the reception of numerous cannon and mortars of the largest calibre. These, together with neighboring martello towers, form a formidable and efficient defence against any aggressive movement which might be directed against the City or neighboring country. The City possesses two Colleges, Queen's and Regiopolis. It has several magnificent public buildings; amongst which may be enumerated the City Buildings, New Court House, &c. There are branch establishments of the Banks of British North America, Montreal Merchants and Royal Canadian. It is in lat. 44° 8' N., lon. 78° 40' W. from Greenwich. Distant from Montreal 198 miles, and from Toronto 165 miles. Population 15,000.

London.—The chief seat of the County of Middlesex, beautifully situated on the River Thames, was first settled in 1825, and was incorporated as a City in 1855. A desire has evidently been manifested to imitate the metropolis of the British Empire, as the names of the streets and bridges strongly indicate. The public buildings generally as well as many of the private residences are noble specimens of architecture, and are chiefly built of brick or stone; the streets are wide, laid out at right angles, and lighted with gas. The surrounding country is noted for the culture of grain and all other farm produce. London vies favourably with other Cities of Ontario in manufacturing enterprise: there are several extensive foundries and machine shops, four large flouring mills, the celebrated breweries of Messrs. W. & J. Carling and Labatt & Co., several tanneries and oil refineries, and as regards the manufacture of carriages London stands unrivalled. There is a Board of Trade and all the Banks of the Province have branches or agencies here. Three daily papers, besides several weeklies are published here. The *Free Press*, *Prototype* and *Times* being the most influential. The Churches are numerous, all the principal denominations being represented. St. Paul's Cathedral is a handsome Gothic structure built of stone. The other church edifices are also handsomely and substantially built, forming ornaments to the City. The Huron College incorporated May, 1863, provides instruction for candidates for Holy Orders in the United Church of England and Ireland, and also receives students desirous of obtaining instruction in the higher branches of education. The Hellmuth College incorporated 1865 is situated on a beautiful site, the grounds of which comprise ten acres. It was founded by the Very Rev. I. Hellmuth, D.D., Dean of Huron, who is also actively engaged in establishing a similar institution for females, the site of which is already secured. There are also two Roman Catholic Institutions, viz.: the Academy of the Sacred Heart, and the Sacred Heart Convent. The Crystal Palace is a handsome and commodious building, and its grounds spacious and attractive, besides the Provincial Exhibitions being occasionally held here, a local Fair has lately been established with great success, including the County of Middlesex and City of London Associations which is intended to be held annually. London enjoys excellent railroad communications. The Great Western Railway passes through the City, connecting with all points east and west, also with a branch to Sarnia. The Grand Trunk has a branch railroad to St. Mary's, there is also a railway direct to Port Stanley. Distance from Hamilton 76 miles, from Toronto, 115 miles, from Montreal, 447 miles, from Sarnia, 56 miles, and St. Thomas, 15. Population about 18,000.

RAILROAD WEEKLY

ADVERTISER,

LONDON, ONTARIO.

The Circulation of the above Journals is greater than that of any other paper in the West.

JOHN CAMERON,

Editor and Proprietor.

THE VOLUNTEER REVIEW,

AND

CANADIAN MILITARY AND NAVAL GAZETTE,

A WEEKLY JOURNAL, PUBLISHED AT OTTAWA, ONT.

AND DEVOTED TO THE INTERESTS OF THE VOLUNTEER FORCE; THE SEDENTARY MILITIA; THE MILITARY SCHOOL CADETS, AND THE MILITARY AND NAVAL ESTABLISHMENTS GENERALLY IN THE DOMINION OF CANADA.

EDITED BY LIEUT.-COL. THE HON. A. T. H. McLEAN.

THE REVIEW, on the 5th of January, 1869, entered upon the third year of its existence, under the most favorable and gratifying auspices, a fact which goes far to prove that its course has met with the approval of those in whose interest it is published.

In the future, as in the past, no pains nor expense will be spared to render The Review in every way a credit to its conductors, so that it may attain to that standard of excellence by which our brave defenders themselves are measured at home and abroad.

Owing to its extensive circulation throughout the entire Dominion The Review offers unrivalled inducements for professional and general announcements. Terms—1 column, 1 year, $100, and in that proportion for smaller advertisements.

Subscription Price, $3 a year, strictly in advance.

Ottawa—The Capital of the Dominion of Canada, is situated on the Ottawa River, 87 miles from its confluence with the St. Lawrence, and where the Gatineau and Rideau Rivers and the Rideau Canal meet. The city, formerly called Bytown, obtained its name from its founder, Colonel By, an officer of the Royal Engineers, commissioned by the Imperial Government, in 1827, to superintend the construction of the Rideau Canal. In 1854 Bytown was created a city, and its present more appropriate name conferred. The canal divides the city into Upper and Lower Town, and enters the Ottawa throug height magnificent stone locks. A massive cut-stone bridge, erected by the Royal Sappers and Miners, crosses the canal. The city is well laid out, the streets are generally wide, regular and uniform, and for the most part intersect each other at right angles. The principal quarters are supplied with gas, and active measures are now being taken for the construction of ample water works. The celebrated Chaudiere Falls, at the western extremity of the city, present a scene of grandeur unsurpassed on the continent, e[illegible]by the Niagara Falls, which in many respects they rival. A suspension bridge, erected by th[illegible]ncial Government, at an original cost of $66,448, spans this foaming chasm, and unites the Provinces of Quebec and Ontario. At the north-east end of the city are two other Falls, over which the waters of the Rideau River are precipitated into the Ottawa, and although inferior to the Chaudiere, they are not wanting in interest. Altogether the scenery around the city is of unequalled beauty—wild, romantic and picturesque, —presenting a variety rarely to be met with. The commerce of Ottawa is constituted almost wholly of lumber, which passes through the city from the vast forests in the rear. More of this staple is manufactured in the district of which Ottawa is the emporium, than in any other part of Canada, and the supply furnished here is the main dependence of the spring and fall fleets which arrive in this country for return cargoes to Europe. Of sawn lumber, the mills at the Chaudiere and Rideau Falls send out every year about one hundred millions of feet, board measure. The mills in the vicinity send out about seventy million feet of deals, and several smaller mills through the country about twenty millions more, for all of which Ottawa is the commercial centre. In addition, vast quantities of square timber are also annually exported. The future of Ottawa is not difficult to foresee. Situated in the centre of a fertile and rapidly developing country; holding, as it were, the key of the lumber trade; possessing unlimited water power, which men of enterprise and capital are yearly turning to account, as also every facility of communication with the principal cities of the Dominion and with the United States, it is d[illegible]tined to become a place of immense manufacturing operations. The natural capabilities of defence r[illegible]at and important. The Parliament Buildings, recently erected, are magnificent specimens of archi[illegible]there is no modern Gothic purer of its kind, nor less sullied with fictitious ornamentation. They [illegible]sist of three buildings, forming three sides of a quadrangle, but they are not joined, the vacant spaces at the corners being of considerable extent. The fourth side opens upon one of the principal streets of the city. The total frontage of the quadrangle, including the side buildings, is 1200 feet. The centre buildings, having a frontage of 475 feet, are occupied as the Houses of Parliament, and the side buildings as Goverment offices. The buildings stand upon a rock rising almost perpendicularly 170 feet, looking immediately down upon the river, though they are approached from the city without any ascent. The St. Lawrence and Ottawa Railway was opened in 1854, and adds materially to the prosperity of the city. There is a daily line of steamers between Ottawa, Montreal and Kingston, and trains twice a day to Prescott, connecting with the Grand Trunk and Ogdensburgh Railways. Ottawa is distant from Montreal 126 miles, from Quebec 296, from Kingston 95 and from Toronto 233 miles. Population 22,000.

Owen Sound.—The County Town of Grey, and a Port of Entry, situated at the mouth of the Sydenham River, on the South side of the Georgian Bay, Lake Huron, in the Township of Sydenham. It was first settled in the year 1840, and has rapidly increased in wealth and population. The exports are principally grain and timber. The water power in the vicinity affords excellent facilities for manufacturing purposes and several establishments are in operation adding greatly to the prosperity of the Town. Steam communication daily with Collingwood and Meaford by steamer *Frances Smith*, and in winter by daily stage; by steamer *Algoma* weekly with Bruce Mines and Sault Ste Marie, and tri-weekly with Colpoy's Bay, by steamer *Champion*. Daily stage to Guelph, Southampton, &c., Distant from Collingwood by land 41 miles, by water 60; from Meaford 28; Colpoy's Bay 40; Guelph 84; Sault Ste Marie 250, and Bruce Mines 220. Money Order Office and Savings Bank. Population 3000.

Sarnia.—The County Town of Lambton, in the Township of Sarnia, at the head of the River St. Clair, near its junction with Lake Huron. It is immediately opposite the City of Port Huron, State of Michigan, with which it has constant communication by a steam ferry, at all seasons of the year, the navigation at this point never being obstructed by ice. The town was laid out in 1833, and is situated on a healthy site at an elevation of eighteen feet above the river. Possessing excellent facilities for transportation, and one of the best harbors on the Lakes, its commercial and manufacturing advantages cannot be overrated. The buildings are numerous, and several of them of a superior kind. The streets are well paved and regular, crossing at right angles. Sarnia is the terminus of the Grand Trunk and the Sarnia branch of the Great Western Railway, both Companies having extensive depots here. Distant from Detroit 60 miles, and from Goderich 60. Money Order Office and Savings Bank. Population 3000.

Sault Ste Marie.—The County Town of the District of Algoma, is situated on the north shore of St. Mery's River, at the foot of the rapids which obstruct navigation from Lake Huron to Lake Superior, which are, however, overcome by a canal constructed on the United States side of the river. The town settled by the French in 1668, is a port of entry, and now numbers, 400 inhabitants, consisting principally of French Canadians and half-breeds. The mode of travel during the summer months is by steamer from Collingwood, distance about 370 miles. fare $8.50. The minerals of this section of the province consist of iron, lead, copper, silver, gold, nickel and cobalt ; the chief products, wheat and all kinds of grain, lumber, furs, etc., fish and game are abundant. Government lands are worth 20 cents per acre, and improved about $10. There is a Roman Catholic chapel, and priest in attendance, with a large congregation. Protestant services are held in the Court House and school house, the latter place was built by private subscription and has a large attendance of pupils. The value of exports from this port for the year ending June 30th, 1868, amounted to $303,429.

BELL & COMPANY,

Book and Job Printers,

No. 70 King St., between Toronto & Church Sts.,

TORONTO, ONT.

Our facilities for the execution of SUPERIOR PRINTING are unexcelled. Our types comprise the latest and most beautiful styles, produced by the leading British and American Founders ; and being new, give that uniformity, clearness, and beauty of expression which are never attained by the common practice of combining old and new material. *We are provided with the most approved Machinery* from the SMALLEST CARD PRESS TO THE MAMMOTH POSTER PRESS, Capable of throwing off 1,500 impressions per hour.

To our already large assortment of elegant designs, we are constantly making new additions, enabling us to represent almost every subject and business.

We keep in Stock an extensive assortment of Plain and Fancy Stationery, purchased at Wholesale in the best Markets.

We are thus enabled to execute every description of Plain and Ornamental Job Printing, promptly, expeditiously, and at the lowest prices compatible with the best workmanship.

Fine Ornamental Printing in Gold Tints and Rich Colors. ☞ We get up a NEW AND SUPERIOR TAG, for Manufacturers and Merchants, at the same rate per 1000 charged for the inferior quality formerly in use.

We also keep constantly on hand, BLANK DEEDS, MORTGAGES & LAW FORMS of every description, printed on SUPERIOR PAPER, specially imported for us for this purpose. Our Law Forms are preferred by the profession to the best specimens of Lithographic Printing, while they are Cheaper and Superior in every respect. Parties ordering 100 and upwards can have the name and address of their firm endorsed.

With many years' experience as to the wants of business men, and giving strict personal attention to the proper execution of all work done at our establishment, we guarantee to give satisfaction both as regards PRICE AND QUALITY OF WORK.

Orders from the country promptly executed, and forwarded by Express or otherwise as desired. Address,

Toronto.—The chief city of the Province of Ontario, is situated in latitude 43° 39' 24" north, and longitude 79° 21' 30" west, on the north-west shore of Lake Ontario, and facing the Bay, a beautiful and spacious sheet of water, oval in form, and accessible to craft of all kinds. It was founded by Lieutenant-Governor Simcoe, who, having formed extensive plans for the improvement of the colony, resolved upon the foundation of a Provincial capital, and caused the first survey of the site to be made in 1793, by Bouchette. of the Royal Engineers. The place was called York until 1834, when it was incorporated, and the name changed to Toronto. In 1813 York was captured by the Americans, under General Pike, who was killed at the storming of the fort, but was held only for a few days, while in the meantime the Government House, public buildings, and all stores that could not be carried away, were burned. The site of the city is nearly level, sloping gently from the water's edge. The form is that of a parallelogram, the streets intersecting at right angles; the two chief thoroughfares, containing the principal mercantile establishments, are named King and Yonge: the former runs parallel with the Bay, and the latter intersects it, extending northwards for upwards of thirty miles, forming a sort of irregular village, and passing through a rich and prosperous country. The public buildings are numerous, and many of them very handsome. The principal are University College, a spacious Gothic structure, standing amidst the retired retreats of the Queen's Park, with beautiful avenues leading from Yonge and Queen Streets, Trinity, Upper Canada and St. Michael's Colleges, the Provincial Normal School Buildings, the Magnetical Observatory, situated in the Queen's Park, established by the British Government at the request of the Royal Society of England in 1840, the General Hospital, St. James' and St. Michael's Cathedrals, and the numerous churches, Osgoode Hall, the seat of the Superior Courts of Law and Equity for Ontario; the Crystal Palace, built for the use of the Provincial Exhibition, the Provincial Lunatic Asylum on Queen Street and its branch in Queen's Park, the St. Lawrence Hall, Mechanics' Institute, Masonic Hall, Merchants' Exchange, Western, British American, Royal, and Edinburgh Insurance Buildings, the *Telegraph* and *Globe* printing offices, and the several banking establishments. The Queen's and University Parks, the Horticultural Gardens and Normal School Grounds are tastefully laid out and open to all for pleasure and recreation. Toronto is the seat of the Provincial Government, and the several public departments are located here. The industrial establishments are extensive, thriving and rapidly extending their capacity and improving their productions. The city is well supplied with water, and is lighted by gas. The spacious land-locked harbor affords every facility for any possible extension of trade and the connection with all parts of the Dominion and the United States, by means of the Grand Trunk, Great Western and Northern Railways, and by navigation in summer, combined with the steady energy and enterprise of her citizens, and her centralized position, make the future of Toronto progressive and prosperous. Estimated city assessment, $25,000,000. Distant from Montreal 333 miles, Kingston 165 miles, Hamilton 45 miles, London 114 miles, Collingwood 93 miles, New York 500 miles, Boston 593 miles. Population 60,000.

HEALTH, COMFORT AND ECONOMY.

The Subscriber begs to call the attention of the public generally to a NEW invention called NORTH'S PATENT DRUM HEATER, for which letters patent were issued on the 10th day of April, 1865, and feels fully satisfied that any parties who may see fit to give it a trial will find it greatly to their advantage, in a pecuniary point of view, as it will EFFECT A SAVING OF HALF THE USUAL QUANTITY OF FUEL, AND ADD MATERIALLY TO THEIR COMFORT. For this admirable invention, the Patentee received the Diploma of the Provincial Association for the said Drum Heater, when exhibited at the Exhibition held at Hamilton, on September 26th, 1864; and since that period many orders have been received from the adjoining Counties and Towns, as the Heater can be applied with equal advantage and service to stoves where coal is burned as well as wood.

NORTH'S PATENT DRUM HEATERS,

Are peculiarly adapted for Churches, Schools, Halls, &c. Their effects are quickly felt in a more striking manner in large rooms that have been found difficult to heat without a very large amount of fuel. They can be used on every description of stove, cooking as well as others, and the sizes are adapted to rooms in which they may be required.

Rights to manufacture the Heater for Counties or Townships will be sold on reasonable terms, for which, apply to SAMUEL NORTH, or W. B. ADAMS. Address: Box 540, Hamilton, Ont.

Price from $5 and upwards, according to size; the price of course depending upon the size and quality of the material used, and whether of a highly ornamental or plain character.

Parties that are desirous of heating their buildings by hot-air—for which this Drum is adapted—should see this Heater, as it is decidedly the best and most economical one yet invented. The subscriber will be happy to furnish specifications and prices to any parties who will favor him with their address, stating the amount of heat required, &c.

SAMUEL NORTH,
McNab Street, between Vine and Merrick.

CAUTION.—Attempts having been made to infringe upon the rights of the above patent, purchasers are requested to take notice that the words "*M. North's Patent, April 10th*, 1863," are affixed to every heater.

☞ Parties infringing on or IMITATING the above patent will be prosecuted according to law.

BIRCH'S PATENT

Improved Lock Seam Trough,

Patented May 1, 1865.

Warranted not to leak, or break down with the weight of snow, and equal in price to the ordinary Eave Troughs of same quality of material. This Trough can be manufactured of any size and from one to six feet without a seam. The seam being locked and soldered it possesses double the advantage of the ordinary trough in resisting frost, &c.

SAMUEL NORTH,
Sole Manufacturer for Hamilton and County of Wentworth.

NORTH'S

PATENT HOT AIR FURNACE.

Diploma and Prize Awarded at Provincial Exhibition held at Hamilton, September 22nd, 1868.

FURNACE NO. 4.

The heating surface inside of furnace is 62,820 square inches. The heat travels 1,677 inches before leaving the surface. It is the best in use as proved by certificates from parties in all parts of the Dominion. For simplicity of construction, efficiency in heating and economy in fuel, it cannot be surpassed. It is no new thing, but has been before the public for some years, and undergone some very severe tests, but has always been triumphant. It can be applied with equal advantage to Hop Kilns and Dyeing Houses.

MONTREAL,

PROVINCE OF QUEBEC.

Montreal.—The chief City of British North America, situated on a large and beautiful island of the same name, about 30 miles in length by 10 miles in extreme breadth, formed by the confluence of the Ottawa and St. Lawrence Rivers, and on the north bank of the latter. It is at the head of ocean navigation, and the foot of lake and river navigation, about 90 miles above tide water and 300 miles from salt water, possessing all the advantages of a sea coast City and inland navigation combined. It is accessible by vessels of over 1,800 tons burthen, and has direct communication with London, Liverpool, Glasgow, and all foreign ports. It is the chief manufacturing City of the Province, and many of its establishments will compare favorably with those of any other country. Montreal, as seen from any approach, with Mont Royal in the background, together with the beautiful villas, glittering roofs and domes, tall spires and lofty towers, present, to the beholder, a vast, picturesque, and grand panorama. The principal streets are Great St. James, Notre Dame, St. Paul, Commissioners and McGill. Among such a large number of elegant public buildings we may mention the Bonsecours Market, built at a cost of $287,300, one of the finest buildings on the continent, the Court House, costing $296,569, the French Cathedral, the Bank of Montreal, Bank of British North America, the Custom House, McGill College, Jesuit College, Post Office, St. George's and many other churches, all ornaments to the City. The City is well lighted with gas, and the water works are almost unequalled. The water is drawn from St. Lawrence about a mile and a half above the Lachine Rapids, and through an open canal led into a basin, from which it is forced to the reservoir upon the brow of the mountain, several hundred feet above the level of the City. The harbor and basin are good and safe, and capable of enlargement to almost any extent to accommodate the future wants of the City. The wharves, between one and two miles in length, are surmounted with a massive stone wall, upon the heights of which are a promenade and wide street, affording an excellent view of the river and shipping. There are numerous inclined planes from the wharves to the street above, by which carriages ascend and descend, and the whole for appearance, cleanliness and commodiousness, is unexcelled by any port on the continent. From Point St. Charles, at the head of the harbor, to St. Lambert, on the opposite side of the river, a distance of about two miles, has been built the Victoria Bridge, unsurpassed by any other structure of the kind in the world. It has two long abutments and twenty-four piers of solid stone masonry. The bridge is built of iron, on the tubular principle, and makes a complete line of railway from Sarnia, on the St. Clair River, in the extreme western section of the province, to Portland, Maine, giving Montreal an unbroken railway communication of over 1,100 miles in length, with numerous tributaries and connections. The trains of the Grand Trunk Railway leave Montreal daily for all points, both ways, on the line in Canada and the United States. A line of splendid steamers ply weekly between Montreal and Liverpool, carrying the mails, in summer; and between Liverpool and Portland semi-monthly in winter. In the season of navigation steamers ply daily from Montreal to all the principal towns and cities in the province situated on the lakes and rivers. Montreal is distant from Liverpool, 2,750 miles; Quebec, 180 miles; Kingston, 173 miles; from Toronto, 333 miles; Ottawa, 120 miles; Portland, 292 miles; New York, 400 miles; and from Boston, 334 miles. Population about 130,000.

HUDSON'S BAY TERRITORY.

This vast Country stretching across the Northern portion of British America, includes nominally, 1st "Rupert's Land," embracing (as granted by the charter of Charles 2nd, in 1670) all the country watered by the Rivers falling into Hudson's Bay. 2nd. The Indian Territories leased in 1821, and including indefinite areas drained by the Mackenzie, Coppermine, Athabaska, Saskatchewan and Red Rivers; extending from the sources of these Rivers to the Arctic Ocean; and from the Rocky Mountains to the Pacific Ocean. 3rd. The whole of British Columbia and Vancouver's Island.

Hudson's Bay is said to have been reached by Sebastian Cabot in 1517. In 1523-4 Verazzani sailed up the coast as far as Davis' Straits, which were reached by Davis in 1585. Various other English navigators sailed northward in search of a north-west passage, but it was not until 1610 that Henry Hudson reached the Straits and Bay now bearing his name. Button, Bylot, Baffin, Fox and James visited the Bay between 1612 and 1631, and traced out and examined the shores and gave their names to portions of the vast inland sea. Connection with Canada was maintained by Canoe, along the Saguenay River and thence overland to the Bay by the Quebec Fur Company, established by Cardinal Richelieu in 1627. Tadousac at the mouth of the River, was their chief trading post in Canada.

The treaty of St. Germains, in 1632, confirmed the whole of the Hudson's Bay Territory to France and De Groselier and Radisson, two French Canadians visited it, but not being successful in their efforts to induce their own Governments to promote the trade in it, they went to England. Prince Rupert entered warmly into their scheme and despatched them on a trading voyage, and their report being favourable, Charles 2nd (though by the treaty of St. Germain's he had relinquished his claim to the territory) granted a Charter to Prince Rupert and others, for traffic in furs and peltry, in the extensive regions then called Rupert's Land. This was the origin of the famous Hudson's Bay Company's charter in 1670, which was in 1690 confirmed by Act of the British Parliament for seven years, but has never since been renewed.

The first consequences of this charter were conflicts between the English and French in the territory. The Chevalier de Troyes was despatched with troops from Quebec, and in 1686 succeeded in capturing the principal forts of the Company. At the treaty of Ryswick, in 1697, and even so late as 1713, the Company had only Fort Albany left. In 1713, by the treaty of Utrecht, the whole of the Hudson's Bay Territory was ceded to Britain and in 1763 the whole of British North America. The Company has since remained in possession, but without any definite title.

The area of the Hudson's Bay Territory may be estimated at about 2,000,000 square miles; its greatest extent from east to west, 3,200 miles; and from north to south, 1,400 miles. The surface of this vast Territory is greatly diversified by ranges of hills, lakes, rivers, prairies, and marshy tracts. The Rocky Mountains on the west, extend from the Arctic Ocean to the United States, but the general slope of the country is in a northerly direction towards the Arctic Ocean and Hudson's Bay.

The most remarkable feature of the Territory is the almost unbroken chain of lakes extending from the head of Lake Superior to the Arctic Ocean. The principal are the Lake of the Woods, Winnepeg, Winnipegosis, Manitoba, Wolleston, Deer, Athabaska, Great Slave and Great Bear Lakes.

The Hudson's Bay Company have upwards of 100 Forts scattered over the country for the purpose of collecting furs, which form their chief trade, the principal are *Fort Garry*, situated a few hundred yards west of the confluence of the Assiniboine and Red Rivers, and *Stone Fort*, in the colony of Red River. The Company employs about 3,000 persons. The population of this vast country is not more than 200,000, composed to a great extent of Indians and half-breeds. The Indians are the Crees, round the Hudson's Bay, and the Salteaux, further in the interior, both inoffensive tribes, subsisting by hunting, fishing and trapping; and further west, in the boundless prairies, are the more warlike, Sioux, Blackfeet, Flatheads, Crows, and other tribes, living on the products of the chase.

North West Company of Canada.—In 1766, various trades, competitors of the Company engaged in the fur trade. They followed the old French route, and had their head quarters at Montreal. These traders united their several interests, and in 1784, formed the "North Western Company of Canada." This new Company directed its trade chiefly to the North-West—*via.* Lake Superior, towards the Pacific Ocean and Columbia River, They even sent trading ships round Cape Horn. In 1793 Sir Alexander Mackenzie, a partner in the Company, made his famous North-West journey from Canada, across the Rocky Mountains to the Pacific Ocean, (the first ever made north of Mexico), and discovered Fraser River. He afterwards discovered and explored the magnificent river bearing his name. The northern or main branch of the Columbia River was discovered in 1811, by Mr. Thompson, the astronomer, who descended its stream to the Pacific Ocean.

In 1811, Thomas Douglas, Earl of Selkirk, purchased a tract of country from the Hudson's Bay Company, lying between the United States boundary and lakes Winnipeg and Winnipegoos, since called the Red River Settlement. In 1821 he brought settlers from Scotland for the Colony, and, subsequently, numbers of Swiss and French Canadians were introduced. Some time after he appointed Captain Miles McDonell, who was Governor of the Company's District of Assiniboine, sperintendent, who issued a proclamation forbidding the appropriation of provisions except to the use of the Colonists. This assumption of exclusive jurisdiction by the Hudson's Bay Company, excited the bitterest feelings on the part of the rival North-Western Company, and gave rise to a fierce contest between them during the progress of which the Colonists were twice expelled and many lives lost, including that of Governor Semple. Sir George Drummond sent part of a regiment from Quebec to preserve order and to restrain the violence of both companies. The feud ceased by the amalgamation of the companies. On the death of Lord Selkirk, the company resumed the purchase on condition of paying a certain quit rent. The majority of the original settlers left the country, and the Company did not encourage further immigration. Hence, with the exception of an occasional visitor from Minnesota and some slight additions from the interior of the Hudson's Bay Territory, as retired chief factors, traders and clerks, the little colony was left to its own resources and in the course of half a century from its foundation it numbered exactly 10,000 souls.

Red River Settlement,—Resources, Climate, &c.—Our object in the present article is not to discuss the vexed question of the Hudson Bay Company's rights, as events now pending point to the almost certainty of the incorporation of this magnificent territory with the Dominion of Canada, but to furnish general information as to the resources of Rupert's Land, and in so doing it will be shown that though in regard of soil, climate, and general resources, a vast section of it is well adapted for settlement; very little encouragement has been given to immigration. As fine an agricultural country as any we can boast of in Canada, containing somewhere about Forty Millions acres of available land, lies here, almost unappropriated, though two centuries have elapsed since first the Hudson's Bay Company adventured into the region

Rupert's Land, as above stated, includes the whole country from the Rocky Mountains to the shores of Hudson's Bay, and is held to embrace the lands on all waters flowing into Hudson's Bay. The extent of this territory is estimated at 1,077,000 square miles. The population is claimed to be about 43,000 Indians and from 15,000 to 20,000 whites and mixed races. At the outset we must state that in any statistics we furnish of the great north-west in this article, we do not include that part of British North America west of the Rocky Mountains, but confine ourselves to a review of the capabilities and prospects of the country east of the mountains, which is yet comparatively in a state of nature, and of this section, the southern or cultivable part alone need claim our attention. In the icy and inhospitable region north of the 60th parallel the hunter and trapper will never be intruded on by the agriculturist, but, leaving that section out of account, we have, according to Lorin Blodgett, a wedge-shaped tract, commencing two degrees south of the boundary line, inclining north-westward in conformity with the bend of the Rocky Mountains, and terminating not far from the 60th parallel in a narrow line. This is a productive and cultivable region, within easy reach of immigration, the surface of which is said to cover fully 500,000 square miles. Professor Hind, speaking of this great prairie plateau, or "fertile belt" of Rupert's Land, says: that it stretches from the Lake of the Woods to the Mountains, a distance af 800 miles, and that its breadth throughout is from 80 to 100 miles. This extraordinary belt of rich soil and pasturage he estimates at 40,000,000 acres. Dr. Huton says that the winter in this region is not more severe than that experienced in Canada, and in the western districts, which are removed from the influence of the great lakes, the Spring commences a month earlier than on the shore of Lake Superior, which is five degrees further south.

The importance of this great region may be gathered from the further fact that not only is it abundant in agricultural and mineral resources, but it is admitted to be almost the sole remaining theatre of colonization on the continent. Explorations of the regions between the Mississippi and the Rocky Mountains, by the United States Government, have disclosed the facts that the limits of nearly all the available areas for settlement, westward, have been reached. The country west of the 98th parallel, embracing nearly one-half of the entire surface of the United States, is a waste which can never be utilized for agricultural purposes. Professor Henry, of the Smithsonian Institute, calls this section "a wilderness unfitted for the use of the husbandman, although in some of the mountain valleys, as at Salt Lake, by means of irrigation, a precarious supply of food may be obtained. On the northern edge of this great wilderness extends the fertile belt of the Saskatchewan Valley, which contains 64,000 square miles of country, in one continuous strip, available for the purposes of the agriculturist." And, says Professor Hind, "by contrast, with an immense sub-arctic sea to the north, and a desert area to the south, this favored 'Edge of the Woods' country acquires political and commercial importance."

Being a prairie region, this fertile belt offers every facility for the making of roads and railroads, and in addition, has a magnificent water communication, which, with some few improvements, would allow a continuous navigation from Breckenridge, on the Red River, 224 miles north of St. Paul, to the shadows of the Rocky Mountains. The country between Breckenridge and St. Paul is level prairie, now traversed by four-horse coaches, daily, being the means of communication, at present, between Minnesota and the Red River and Saskatchewan region.

There is another channel of communication with this country, used only once a year, we refer to that *via* the ice bound region of Hudson's Bay. By this route one or two vessels belonging to the Company, bring out annually, a large portion of the outfits destined for the support of their trading posts in the interior. A few passengers arrive and depart by this route.

Yet another outlet of this territory, and the one in which Canada is most interested, is that by Lake Superior. This track lies across a series of granitic ridges, in some places as high as 1,400 feet above the level of the lake, which form the height of land between the waters of Superior and Lake Winnipeg and Hudson's Bay. Except on the borders of Lake Superior, however, these ridges do not attain the elevation we have mentioned and there are several fine alluvial valleys scattered through the region, where, in the event of roads being opened up, thriving settlements would before long be located. Concerning this route, its feasibility and cost, a good deal of conflicting opinion has been advanced, some would have it that the difficulties are well nigh insuperable and that the cost would be prodigious, but there are a large number of dissentients from this view, and among them we would refer to Mr. Dawson and Mr. Sandford Fleming, the present engineer of the Intercolonial Railway. The latter shows that by taking Mr. Dawson's recommendations as to the construction of a road between Lake Superior and Fort Garry, with some modification, a road could be made through British territory which would be far shorter than any of the routes by way of the States. The shortest and speediest route to Red River through American territory is by way of Grand Haven, Milwaukee, La Crosse and St. Paul, making a total 1696 miles from Toronto. By the route from Toronto to Nipigon harbor, Lake Superior, and thence by the proposed road and steamboat communication to Fort Garry, the distance would be lessened to 1,050 miles. Showing a saving in distance by the British route over every other of 646 miles. This, of course, would lead to a corresponding diminution in the cost of freight and passenger traffic. Mr. Dawson estimates that by taking advantage of the water communication, by way of Dog Lake, Savanne River, the Lake of a Thousand Islands, the River Seine, Rainy Lake and River, and the Lake of the Woods, or a total of 499 miles, of which 308 are navigable by steamers, a good road might be constructed at a cost of from £50,000 to £80,000. It would cost even less than this sum, for the Red River colonists themselves offered to build the section of the road adjoining Red River, 92 miles in length, and at all events, that section is now being constructed for the Dominion Government, while there has also been a beginning made at the other terminal section on Lake Superior, for which an appropriation of $55,000 was lately made by Government. By the construction of this road it is claimed that the cost of conveying goods to Fort Garry would be reduced to less than $40 per ton from Lake Superior, against $100 from York Factory, and $90 from St. Paul, Minnesota.

There are, also, other projects connected with the Canadian section of this proposed line of communication, which we need not here comment on. Among these are the Ottawa and French River Canal ; a railroad from Ottawa to Fort Garry, passing north of Lake Superior ; and a railroad in a direct line from Quebec to Nipigon River, along the watershed between the St. Lawrence and Hudson's Bay. The latter line, it is averred, would shorten the distance across the Continent 120 miles.

The advocates of railroad communication between Canada and Red River are numerous, one view being that it would avoid all the disadvantages and expense attendant on the frequent transhipments incident to the proposed system of land and water communication. Another advantage of railway travel would be found in enabling Canada to compete favorably with Minnesota in the struggle for the rich trade of the north-west. The construction of such a road would seem to be comparatively easy of accomplishment, for, if narrow guage lines can be built for $15,000, or broad gauge for $25,000 per mile, railroad building through any section would not prove such a formidable task ; and it would be still less so, if, as is stated, the means to build such roads can be obtained merely by the aid of land grants. A railroad through the Lake Superior section westward, and across the Continent, has long been spoken of, and urged on the Imperial authorities. If, as has been frequently set forth, British Columbia is, for the purposes of overland communication, the key to the Pacific, and if, as we believe to be the case, it is absolutely necessary to the continuance of British power and rule on this Continent, that British Columbia and Rupert's Land should be united in the Confederation of British Provinces, then there can be no doubt that the Pacific Railway across the British territory will be built, and the sooner the better, for we have our competitors on the other side of the line pushing forward their Pacific Railway at the astonishing rate of three and four miles a day.

Rupert's Land, as we have stated, is rich in mineral as well as agricultural wealth. Within these sub-arctic plains, says Wheelock, between latitudes 47° to 60° north is reproduced the climate of Western Europe, in the corresponding belt of the temperate zone. Nine tenths of Russia, the main seat of population and resources, lies north of St. Paul, Minnesota ; and the great prairie region of the North-West may in the future, witness similar prosperity. Its agricultural resources have been tested all through the fertile belt, with but one result of which we have heard, unvarying success ; and enough has been revealed of its mineral treasures, with the slightest exploration, to show them to be abundant. Gold, silver, iron, lead, coal, gypsum, petroleum and salt, are found in the Saskatchewan valley. A vast coal bed, according to Sir John Richardson, skirts the base of the Rocky Mountains to a great extent, and is believed to be continued far into the Arctic Sea. The existence of this great coal field, it will be seen, must be of the utmost importance in the future development of a region devoid of timber, for the most part, except along the water courses.

Throughout Rupert's Land there are several small settlements of the white and mixed races. Around the Presbyterian, Roman Catholic, Methodist and Church of England Mission-posts on the Saskatchewan, and here and there in the interior, many families have settled down, built themselves snug homesteads, cultivated farms, and erected churches, chapels and school houses. There are also a few feeble attempts at settlement around most of the Hudson's Bay Company's posts. But, looking at the vast unoccupied domain in which these little beginnings of civilization are originating, they appear the merest specks—the scarcely recognizable vanguard of that vast army of emigration which will one day overrun these magnificent plains, and cause a solitary place to blossom as the rose. The largest settlement in the Territory is that called Red River, on the river of that name. Red River empties into Lake Winnipeg, and is situated in lat. 50° N., and long 97° W. It runs north and south, taking its rise in the affluents of Elbow Lake, Minnesota, on the height of land close to the sources of the Mississippi, and has a course of over 500 miles in length. Fort Garry, as the Red River Colony is sometimes termed, is the Hudson Bay Company's Post, at the confluence of the Red and Assiniboine rivers in the settlement.

The late Alexander Ross, in his work on the Red River Settlement, speaks of it in the most favorable terms. The country, he says, is healthy, the soil rich, and the crops luxuriant; and he cites frequent instances in which from 40 to sixty bushels of wheat to the acre were obtained. The climate of Red River, and even the whole Saskatchewan Valley, is claimed by Blodgett to be nearly as mild in its annual average as that of St. Paul, Minnesota, which would give it a winter mean of 15 degrees, and an annual mean of 44 degrees. This would represent the climate of Wisconsin, Northern Iowa, Michigan, Ontario, and Southern New England. In summer it is warmer than Northern Illinois, Western Wisconsin, Northern New York, or Ontario. The winter, though very cold, is like the corresponding season in Quebec, a very enjoyable and healthy one. With a bright sunshine, and clear dry atmosphere, the season is one of much enjoyment out of doors, and not half-a-dozen times in a winter, perhaps, is travel interrupted by intensely cold or stormy weather. Spring opens at the same time as at St. Paul, and Minnesota, it need hardly be observed, is now one of the largest grain producing States in America.

The Company's nominal selling price for land in the Red River District is 7s. 6d. per acre; but, having no force to enable them to deal with defaulters, the Company never made much out of the land business. If a settler paid up on a notification from the authorities, well and good; if he proved fractious and refused to pay, well and good also. He lived unmolested. Land changing hands between private parties, would in most instances, command a far higher price than that named above. But, for the most part, if a man desires to change his location he goes on to wild land and occupies it as by unquestioned right. As to the agricultural capacity of the District generally, not only is it capable of raising splendid wheat; but also all the great northern staples—corn, oats, barley, potatoes, sheep and cattle; and it has been observed that "cultivated plants yield the greatest product near the northernmost limits of their possible growth." And, for this reason, says Blodgett (and no better authority can be quoted) "it is proved that the Basin of the Winnepeg is the seat of the greatest average wheat product on this continent, and probably in the world." Throughout the Red River Settlement the yield of grain and root crops is prolific, and those taking to the cultivation of the soil have had, as a rule, abundant returns. Not only has this been the case, but for the last ten years at least, farmers have been able to dispose of all they have raised at high prices; wheat for instance, ruling at from 4s. to 10s. sterling per bushel, and other crops in proportion. From a residence of some years in that quarter, the writer of this article can safely say that notwithstanding the good rates obtaining for grain, during no one year of the past eight or ten, has the supply kept pace with the demand; and this has been owing, not to a failure of crops (except in the case of the grasshopper visitation last year), but to a failure to put in enough seed to suffice for the wants of the community, and allow of a limited supply for the interior of the Territory. The settlers in Red River, it must be explained, are not all farmers. Out of 12,000 or 14,000 inhabitants fully one-half follow the chase, and depend on it almost solely for their sustenance the year round. They are nominally farmers also; but a glance at the weed-grown, ill-cultivated patches of soil adjoining their homesteads, will show what an utter farce their farming is. It could not be expected to be otherwise; for hunting and farming are such dissimilar pursuits that the man engaging in both will almost infallibly neglect one. But, until the past four or five years, the hunter could very well afford to neglect his farm. He sallied out to the plains twice or thrice a year with his family and fellow hunters and their families, until their number swelled to the dimensions of a small army. And they hunted and feasted the summer through. Thousands of buffaloes were slain in these expeditions; and the man himself was to blame who did not return home with from two to half a dozen cart loads of buffalo meat. He had thus abundance to keep his family all the year round, for the surplus could be readily bartered for flour, tea, cloth, and all the necessaries of life. But not in the great majority of cases, perhaps, did the supplies last out their term. The hunter's return home was signalized by such prolonged feasting, and his ideas of domestic economy were so extravagant, that two or three months before spring time came starvation stared them in the face and only by short allowances and unlimited credits could Jean Baptiste make both ends meet till the season for hunting came round again. From this class there is a large annual demand for farm produce.

Having glanced thus briefly at the climate, resources and prospects of the Red River Settlement and Rupert's Land generally, we will close our sketch with a few remarks concerning the Government and religious and educational advantages enjoyed by the inhabitants of Red River. Those living in the interior are pretty well provided for by the missions, so far as the means of education and religion are concerned. As to governmental machinery it is not generally needed in the interior of that vast almost untenanted domain. Where it is called for, some primitive substitute is found, it is generally satisfactory, and on the whole, justice is done between man and man. In the Red River district affairs are managed by a Governor and Council, the latter being appointed by the Hudson Bay Company in London, from among the settlers, and numbering usually a dozen or more. The Roman Catholic and Episcopal Bishops as well as the Recorder, have seats at this Council Board. The laws are few and simple, and are seldom amended or repealed, and this little Parliament of Assiniboia, as it is sometimes called, is one of the most easy-going, good natured bodies to be found to-day on the face of the Globe. The only imposition in the shape of a tax, is a four per cent. duty levied indiscriminately on all the imports. Occasionally they have discriminated against spirituous liquors and imposed on them a heavy duty. But, as in more civilised communities this only led to smuggling on an extended scale. The funds realised from these sources by the Council are mainly squandered in patching up roads and bridges, and the work performed in this way is of such an excellent character that it has to be done over again every year or so.

The only religious bodies in the settlement are the Roman Catholic, Episcopal, Presbyterian and Methodist, the latter body making its first appearance there last year, and having very few adherents yet. The Roman Catholics number about half the population, and have a fine cathedral, college, nunnery, and several chapels and schools scattered along the Red and Assinobine Rivers. The present Bishop, Taché, once swayed the entire country between the mountains and Lake Superior, but two other Dioceses were carved out of his a few years ago. The Episcopal and Presbyterian Churches may be said to divide the remainder of the Red River population between them. The former denomination boasts an excellent cathedral, college, and a large number of churches and schools—more than ample for the wants of the present number of inhabitants. The Diocese of the Bishop, Machray, extends over all Rupert's Land. The Presbyterian settlers have, also, several churches and schools, and are, generally, the most well-to-do section of the community.

Justice is administered by a Recorder, who holds Quarterly Courts at Fort Garry, and these deal with al cases not coming under the cognizance of the Petty Courts. These last are held monthly, and presided over by the Magistrates of the District. The decisions in these Courts, being, as a rule, given with less regard to strict law than common sense, would occasionally astonish an outsider, but are, on the whole, as satisfactory to those most concerned, as legal decisions usually are.

The Northwest.—By the Rev. Æn. M'D. Dawson, Ottawa.—The "North West Territory," is that portion of British North America which is situated between Lake Superior to the east, the Pacific Ocean and the Russian Dominions (now a portion of the United States) to the west. The 49th parallel of north latitude, and the chain of waters from Rainy Lake to the confluence of Pigeon River with Lake Superior, form the boundary between this territory and the United States on the south. To the north, with the exception of some portions of Alaska (lately Russian America), it has no other limits than those of the globe itself—the ice, the snow, the perpetually frozen seas and lands of the polar regions.

The Principal Rivers.—North Western America is watered by numerous rivers, the greater of which only need here be named. The Columbia, rising in the Rocky Mountains, traverses the Blue Mountains, and the Cascade Mountain chains. It, then, after many windings sometimes in a southerly, sometimes in a westerly direction, loses itself in the Pacific Ocean at Astoria, three degrees south of the boundary line. The treaty which deprived Great Britain of the better part of the Columbia, left to her the right of navigating this noble river in common with the citizens of the United States. The Fraser River also has its source in the Rocky Mountains. After a circuitous course through the Blue Mountains, the Cascade Mountains, and the intervening plains and valleys, it joins the sea at the strait or sound which separates Vancouver Island from the Continent of America. This river is celebrated for its sands of gold. Even as to California and Australia, thousands of adventurers have already been attracted to its banks; and their enterprise has been crowned with success unsurpassed as yet in the annals of gold digging.

Of Pelly River there need be little mention, as it half belongs to a foreign power. It is quite possible, however, that arrangements might be made with that power (the United States) for navigating this great river to its junction with the sea.

The Mackenzie River is wholly within British territory. It is one of the greatest rivers in the world its course being two thousand five hundred miles from its source in the Rocky Mountains to its debouch in the Arctic Ocean. It is navigable for about twelve hundred miles, thus affording easy access in the summer months from the Arctic Sea, and from the Northern Pacific by Behrings Straits, to the interior of the North-West Territory. It flows through a fertile and finely-wooded country, skirted by metalliferous hills. According to the best computation, it drains an area of 443,000 geographical square miles.

The Elk and Peace Rivers, although great and beautiful streams, are only tributaries of the MacKenzie.

The Coppermine and the Great Fish River also discharge their waters into the Arctic Ocean. The former abounds in copper ore and galena. On the banks of the latter, it is credibly said that there is excellent grazing. Next comes the Churchill River which flows from the interior of the country, across the Granite Belt to Hudson's Bay.

The Saskatchewan with its two branches arising in the Rocky Mountains, drains an area of 363,000 square miles. The Red River and the Assiniboine flowing from the heights near the sources of the Missouri and the Mississippi add immensely to the waters of Lake Winnipeg and thence find their way by the Nelson River to Hudson's Bay.

General Description.—There is admirable unity in the geological appearances of this vast territory. By nature it has been made one land, however much it may be divided by the policy of man. The great chain of the Rocky Mountains extends from its southern to its northern boundary, rising at its highest elevation, to the height of sixteen thousand feet above the level of the ocean. Parallel with these, to the west, rise the Blue and Cascade Mountains, as if intended for a vanguard towards the waves of the Pacific. From the base of the Rocky Mountains, eastward, the country is a gently sloping plain for 800 or 900 miles, to the commencement of the great Crystalline Belt, which taking a north-westerly direction about the head of Lake Superior, continues in this course and almost parellel with the Rocky Mountains as far as fifteen hundred miles, and with only a slight elevation above the neighboring plain until reaching the Coppermine River near the Arctic Ocean, it forms hills eight hundred feet in height. Its average breadth is two hundred miles. On the side that looks towards Hudson's Bay, its outline is pretty much the same as that of the shores of this sea, thus verifying what geologists say as to the waters of this region having been confined within their actual limits by the upheaving of these primary formations. Between this belt or plateau and the Bay, there is a narrow strip of limestone. From this bed of limestone to the sea, the land is low, flat, swampy, and, in part, alluvial.

Lakes.—On the western edge of the great Chrystaline Plateau are situated the principal Lakes of the North-western Continent—Winnipeg two hundred and thirty miles in length and forty miles broad; Athabasca, Great Slave Lake, and the largest of them all, Great Bear Lake, which is intersected toward its North-western extremity, by the Arctic Circle.

To the west of this great chain of water the country is all habitable, and in a northerly direction, as far as the sixty-fifth degree of north latitude. If, indeed, the MacKenzie River should ever be what nature has adapted it for being, the principal channel through which a great portion of the trade of the western world must flow, there may one day be a dense population even so far north as the junction of its waters with the Arctic Ocean.

Country West of the Crystalline Belt, Assiniboia, etc.—The portion of the country that may be first considered is the extensive region bordering on Lakes Winnipeg, Manitoba and Winnipigoos. Its principal rivers are the Assiniboine, which is all within British territory, and the Red River, which only becomes British at Pembina, a small town on the frontier of the United States. The authorities that can be most relied on, speak highly of the climate, the soil, and the beauty of the region. It has been officially

reported by the Canadian Exploring Expedition of 1857, that "the summer temperature is nearly four degrees warmer than at Toronto, as ascertained by comparison of corresponding observations." Summer begins earlier and with more regularity than in Canada. We are not surprised, therefore, to learn that "the melon grows with the utmost luxuriance, without any artificial aid, and ripens perfectly before the end of August." (Expedition '57.) Wheat crops have often been known to give a return of fifty bushels to the acre, and farms have been proved to be capable of yielding for eighteen successive years without any diminution of their produce. All kinds of garden vegetables, as well as oats, barley, Indian corn, hops, flax, hemp, potatoes and other root crops are easily raised. "The potatoes, cauliflowers and onions I have not seen surpassed," says Professor Hind, "at any of our Provincial fairs."

The character of the soil cannot be exceeded. It is a rich, black mould, from ten to twenty inches deep, reposing on a lightish-colored alluvial clay, about four feet deep, which again rests upon lacustrine or drift clay, to the level of the water in all the rivers and creeks inspected by the Expedition of 1857 and 1858.

It is far from being true, as has been stated, that there is only some arable or cultivable land along the course of the great rivers. "I frequently examined the soil," writes Professor Hind in his official report, "some miles distant from the rivers along my line of route, and I invariably found the prairie country to exhibit an uniform fertility." This rich and beautiful region which has been described by some travellers, as an unbroken level, watered by numerous tributary streams, and abounding in elm, oak, ash, maple and all the varities of trees known in Canada, is no less than one million five hundred acres in extent. Recent observations also prove that this "paradise of fertility," as it has been called by one of the settlers, is not more than six hundred feet above the level of the ocean.

Passing to the west of the valleys of the Assiniboine and Red rivers, we find a country no less fertile, and even more beautiful, as it possesses the pleasing variety of hill and dale. It is watered by an infinite number of lesser streams, the principal of which are the Swan river, and the higher tributaries of the Assinniboine. This interesting region was likewise visited by the exploring expedition sent by the Government of Canada in 1857-8. In Mr. S. J. Dawson's official report of this expedition, published by order of the Canadian House of Assembly, this extensive portion of the North-West territory is described as being eminently adapted for the purposes of agriculture and colonization. Possessing a milder climate than the more elevated lands to the south of the United States boundary line, all the varieties of cereal crops can be produced without difficulty or risk of failure. According to this gentleman's description, the whole country has more the appearance of a fine park, beautifully varied with lawns, woods, gardens, shrubberies, lakes and streams, than an unreclaimed tract of unbroken wilderness. If the late Governor of the Hudson's Bay Company, Sir George Simpson, had passed through this country, it would undoubtedly have inspired one of his eloquent and glowing pictures of wood-land, lake, and river scenery. If it has not hitherto been colonized to any extent, the blame for such neglect of the interests of humanity must be charged to the Hudson's Bay Company, whose policy, however worthy and meritorious each leading member is known to be, is necessarily hostile to every enterprise that is not calculated to preserve and increase the profitable breed of martens, beavers, muskrats, foxes, wildcats and other vermin, together with the aboriginal races in their rude state, who are the best hunters of such animals and the most expert purveyors of skins and furs for the great fur-dealing company.

The Saskatchewan Country.—This extensive territory stretches from the borders of the granite plateau already alluded to, and from which it is separated by a chain of waters consisting of Cedar Lake, a portion of the River Saskatchewan, Fine Island Lake and Beaver Lake, for a distance of 800 or 900 miles westwards to the Rocky Mountains. It is divided into numerous plains and valleys by the river Saskatchewan, its two great branches, and its numerous tributaries, which rising, for the most part, in the vast mountain range, sweep down through innumerable vales and glens on its eastern slope, giving life, beauty and fertility to a region which would otherwise be a rugged and forbidding wilderness.

The travellers who have visited this region bear ample witness to the fertility of the soil. The scenery they describe as "magnificent," and the banks of the river on either side, as luxuriant beyond description. "Vast forests," says Lieutenant Saxon, "cover the hill-tops and fill the valleys. The climate is mild, and cattle keep fat in winter as well as in summer on the nutritious grasses."

Sir George Simpson, who had been for thirty years Governor of the Hudson's Bay Company, in his very beautiful and interesting book (Voyage Round the World), informs us that "the rankness of the vegetation between the forks of the Saskatchewan, savoured rather of the torrid zone, with its perennial spring, than of the northern wilds." He speaks of himself and his fellow-travellers as "brushing the luxuriant grass with their knees, and the hard ground of the surface was beautifully diversified with a variety of flowers, such as the rose, the hyacinth and the tiger lily."

"Towards the foot of the Rocky Mountains," says the same impartial writer, "lies a country capable of being rendered the happy home of millions of inhabitants, when facilities of communication shall be offered which can lead to it."

Dr. King, in his evidence before the select Committee of the House of Commons (1857), gives a very interesting account of a colony which was endeavoring to establish itself near Cumberland House, between Fine Island Lake and the River Saskatchewan. This colony occupied, and had in a high state of cultivation, some fifteen hundred acres, on which they raised excellent wheat. When asked by Mr. Christy whether the cultivation was successful, Dr. King replied, "quite successful; the wheat was looking very luxuriant." Were there any other kinds of crops? "There were potatoes and barley, also pigs cows and horses." In this small settlement, each man had his own particular allotment, and everything, according to the evidence of Dr. King, was in the most flourishing condition. The learned witness, however, further states—"When I was coming away they said: 'Cannot you help us? You are a Government officer; the Company have ordered us to quit, and we shall be ruined.'" Of course agriculture and colonization were not the objects of the Company; and, *la raison du plus fort est toujours la meilleure.* What became of this interesting little colony the document said not. The day may not, perhaps, be far distant when colonization will be undertaken on a greater scale, and under more fostering auspices.

But it has been stated that owing to periodical inundations which, every spring, lay the whole country under water, for nearly 200 miles from the junction of the Saskatchewan with the lakes, cultivation, the raising of crops,—settlement—are impossible. This objection, if, indeed, it be a serious one, applies only to a very limited section of the country. And, could no means be discovered by which these inundations might be prevented or at least regulated and rendered advantageous? There are falls of great magnitude near the point where the Saskatchewan joins Lake Winnipeg; and although the people at Red River do not think that by removing a certain mill pond in their country, an immense swamp which it dams up would be drained, it is nevertheless beyond question, that if the wants of man required it, the annual floods of the Saskatchewan might be made to find their way into Lake Winnipeg without first inundating the country. But, in a region where it rains so little, the precipitation being in the course of the year only fifteen inches, it might tend more to the raising of abundant crops, to regulate and even extend the rush of the spring tide waters. To what does Egypt owe the fertility of its plains, if not to the Nile's inundations? The whole valley through which the great river flows was wont to be overflowed, and often to excess; yet who ever heard of a famine on the banks of the Nile, or that Egypt was incapable of being, when occasion required, the granary of the world? In order that no inconvenience might arise from excessive inundations, great and stupendous works were erected by the generosity of the kings of Egypt and the ingenuity of her people. Thus were the superfluous waters disposed of and regulated, so as to increase to an amazing extent the fertility of the land. Who knows but, when people if not princes have been multiplied on the earth, similar works may be undertaken in the hitherto neglected regions of the North-West?—and who dare say that the vast countries there, which have known no sound as yet save the lowing of wild cattle and the war-whoop of the fierce red-man, shall not rejoice one day in all the blessings of civilization, and become vocal with the glad accents of millions upon millions of happy beings.

Soil and Climate of the Regions Watered by the MacKenzie River and its Tributaries, the Elk and Peace Rivers.—The valleys of the Elk and Peace rivers, tributaries of the MacKenzie, although much further north than the countries on the Saskatchewan, being situated between the 55th and 58th degrees of north latitude, enjoy a climate and soil adapted to the growth of all the cereals, and all kinds of garden vegetables. Wheat, even, can be raised easily in these valleys, for it grows at Fort Liard, in 60 degrees north latitude, on Mountain River, another tributary of the MacKenzie. Although we have no positive evidence before us which decidedly proves that wheat crops may be relied on at Peace River, there is surely ground for believing that, where the spring is so early, grain, which even cold Siberia refuses not to the labor of man, might be successfully cultivated. Sir Alexander MacKenzie, in his journal of date 10th May, 1793, says that "already the buffaloes were seen with their young ones frisking about them." At this time also, (10th May), "the whole country," he writes, "displayed an exuberant verdure. The trees that bear a blossom were advancing fast to that delightful appearance; and the velvet rind of the branches, reflecting the oblique rays of a rising or a setting sun, added a splendid gaiety to the trees, which no expressions of mine are qualified to describe."

Between the two rivers—the Elk and the Peace—55-56 N. latitude, "the ground rises at intervals to a considerable height, and stretches inward to a great distance. At every interval or pause in the rise, there is a very gently ascending space or lawn, which is alternate with abrupt precipices to the summit of the whole, or at least as far as the eye could distinguish. This magnificent theatre of nature has all the decorations which the trees and animals of the country can afford it. Groves of poplars, in every shape, vary the scene, and their intervals are enlivened with vast herds of Elks and Buffaloes—the former choosing the steep uplands, and the latter preferring the plains."—*Sir Alex. McKenzie's Journal*, 1793.

Extreme Limits of Cultivation.—At Fort Norman, within a few miles of the 65th parallel of north latitude, barley and potatoes have been raised, although, probably, wheat could not be cultivated. It is well known, however, that in Europe it grows to perfection as far north as latitude 59.

But, neither wheat crops nor cereals of any kind are destined to form the resources and wealth of the portion of the country. The navigation of the McKenzie will be its treasure. And surely if the enterprising citizens of the United States find it profitable to convey from the seas which receive the waters of this great river, shiploads of whale oil and other merchandise, it will be still more so for the future inhabitants of the flowery regions of the Saskatchewan, the Assiniboine and the Red River to derive like supplies from the Arctic Ocean by means of the McKenzie, which is navigable during the summer months for more than twelve hundred miles; thus affording access to the very heart of the land, whence, in all directions, there are lakes and rivers capable of bearing on their waters the most richly laden merchant ships. Seven millions of dollars yearly, the sum accruing to the United States from the whale fisheries alone, are surely but an inconsiderate fraction of the priceless treasures that might be fished up from the inexhaustable depths of the great Arctic Sea. And this will be, one day, the rich possession of the numerous people who will find their homes on the eastern slope of the Rocky Mountains, and in the fertile valleys and the prairies which end only where the settled country of Canada begins.

The Way to the North-West.—Hitherto, it has been too generally believed that access to the beautiful countries of the North-West is extremely difficult, if not impossible. This idea may have arisen from the circumstance that the Hudson's Bay Company have been in the habit of travelling thither by long and circuitous, difficult and even dangerous routes. It seems extraordinary that they should have preferred to convey their stores and merchandise round by the stormy waters of the north, with their only port at York Factory on Hudson's Bay, which is almost always frozen, when a more direct way was at their command, by the Canadian lakes and the chain of waters which extend from Lake Superior to the vicinity of their settlement on Red River. This may have led to the belief that there existed no better route. Recent explorations have shewn, however, that the journey from Canada to the North-West is shorter than has been supposed, and comparatively easy; that indeed, where there are *portages* or carrying places, a great highway might be established only a little longer than the most direct or *air* line from Fort William at the head of Lake Superior to Fort Garry, on the Red River—(Air line, with a little road making, 377 miles—route by land and water, 454 miles.

Nor does this route pass through a barren and inhospitable wilderness, the height of land separating Lake Superior from the countries to the westward once passed, the rivers and lakes are bordered by prairies

luxuriant woods. Nor are these regions without inhabitants. In addition to the Indian tribes who are by no means hostile, there are numerous settlers of European origin, and several missions have been in existence for many years. The colonists of Red River, who are most anxious to hold relations with Canada, would prefer this route to the more circuitous, difficult and dangerous one by Pembina and through the State of Minnesota. They gave proof of this preference by undertaking themselves to make a road ninety miles in length, from that settlement to the Lake of the Woods which constitutes so large a portion of navigable waters, extending to within thirty miles of Lake Superior. The Government of the Dominion of Canada, in consideration of the loss of the crops at Red River this year, 1868, have relieved the settlers from this responsibility and are now actually directing the construction of a road from Fort Garry, in connection with the navigable waters.

This route will in a short time hence, be available for travel and traffic, part of the land road from Thunder Bay, (L. Superior), towards the lake region, which lies between Lake Superior and the Red River country, being already constructed, and an appropriation having been made by the Canadian Government for the construction of 90 miles of wagon road from the last of the chain of lakes (the Lake of the Woods,) to Fort Garry, the chief place in the Red River Settlement.

It is not unreasonable to suppose that, by opening communications with the North West territories, an important amount of trading will be at once established between those regions and Canada. At present the settlers at Red River are dependent for their supplies on the State of Minnesota. Goods can only be conveyed from St. Paul, the chief city of that State, with considerable difficulty and at great expense. The Northwestern people would find a cheaper and equally well supplied market in Canada; and as has just been shewn, the cost of carriage would be materially less. The able men who direct the energies of the Hudson's Bay company, would be among the first, undoubtedly, to see the advantages of the new route, and to avail themselves of them. Canada cannot fail to recognize her interest in such great public, even national, improvements. Trade, to the value of many millions yearly, would be directed to her borders, wealth would flow to her from the gold mines of the Fraser, the coal fields of Vancouver, the inexhaustible fisheries of British Columbia, and the fertile plains of the Saskatchewan, the Red River and the Assiniboine—waters which, communicating by means of *portages*, lead all the way to the immediate neighborhood of Lake Superior.

And what if the highway to the distant east—to China and Japan; to the lovely islands of the Pacific; to Borneo; to New Zealand; to golden Australia and our vast Indian Empire—should pass through the beautiful and productive valleys of the North-West?

A railway from Halifax or Quebec to the western coast of the American Continent has been spoken of; and, indeed, such a way could be more easily made along the plains of the Saskatchewan and the northern passes, than through the more mountainous country some degrees farther south. Nor would the Rocky Mountains be an unsurmountable barrier. They could be pierced without any serious engineering difficulties at the sources of the MacKenzie and Fraser Rivers, or at the point where they were traversed by Sir George Simpson, with a long train of horses, wagons and baggage, at the head waters of the Saskatchewan and the Columbia. In the meantime, other kinds of roads and modes of conveyance may be adopted with almost equally great advantage. The more direct way to Red River, by the chain of lakes and rivers which already almost connect the Canadian lakes with the settlement at Fort Garry, once established, as it must be in a year or two, the great highway as far as the Rocky Mountains, and within 200 miles of Fraser River, is complete, the rivers and lakes extending westwards from Red River, being navigable even for vessels of large tonnage, eight hundred miles of the way. At present there is no other route to the rich and populous lands of the Eastern Hemisphere than by the stormy seas of Asia and Africa, across the Isthmus of Panama, round Cape Horn, or through the dangerous straits of Magellan, or by what is called "the overland route," through foreign countries. Whether the nations of Europe will continue to prefer these ways, which, however, long and difficult and dangerous, have the sanction of antiquity, it is obvious that Canada, as she increases in wealth and population, will find the new way, although all but untrodden as yet, more convenient, perhaps even essential, for the wants of her extended trade.

British Columbia.—This territory, which includes Vancouver's Island, formerly belonged to the Hudson's Bay Company, but in 1858 was given up to Great Britain, and formed into a colony. It is bounded north, by the Simpson River, and a branch of the Peace River; west, by the Gulf of Georgia, which separates from Vancouver's Island; on the south by the State of Oregon, (latitude 49° N); and east, by the Rocky Mountains. The superficial area is about 280,000 square miles; the greatest extent from north to south 500 miles, and from east to west 400 miles. The colony is divided into eight districts, forming five electoral divisions, viz: New Westminster, Hope, Yale and Litton, Cariboo East, Cariboo West, Douglass and Lillooet. The surface of British Columbia is, in general, mountainous and intersected by numerous lakes and rivers. The climate is temperate, and warmer than in the same latitude on the Eastern coast of the continent, and the land, especially in the interior, is fertile, and well adapted for agriculture and pasturage. It is well wooded, and possesses immense beds of coal and other minerals.

The colony derives its chief importance from the rich gold discoveries which have been made, especially being the source of Frazer's River. The influx of miners and gold-seekers since its discovery, in 1858, has been very great; before that time it was a perfect wilderness, inhabited almost entirely by Indians. The revenue at present (1869) is about $800,000, and the expenditure somewhat in excess *per annum*; the public debt principally incurred in making roads, which are owned by government, is something under $1,500,000. The imports are about $5,500,000, and the exports, including $3,000,000 to $4,000,000 of gold, about the same.

Vancouver's Island is separated from the main coast by Queen Charlotte Sound and the Gulf of Georgia, and from the United States by San Juan de Fuca Straits. The climate is warm and healthy and the soil productive, but as yet not much cultivated, the chief trade consisting of lumber, furs and fish. It owns chief importance to its extensive coal beds.

No census has been taken of the colony, but the population of the two parts together, may be estimated about 30,000 whites and Chinese, and 36,000 Indians.

The distance from **Halifax, Nova Scotia, to Victoria, Vancouver's Island, is about 4,300 miles by the bays and mountain passes.**

MISCELLANEOUS INFORMATION.

THE QUEEN AND ROYAL FAMILY.

THE QUEEN.—VICTORIA, of the United Kingdom of Great Britain and Ireland, &c., Queen, Defender of the Faith. Her Majesty was born at Kensington Palace, May, 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle King William IV; was crowned June 28, 1838; and married, February 10, 1840, to His Royal Highness, Prince Albert. Her Majesty is the only child of his late Royal Highness Edward Duke of Kent, son of King George III. The children of Her Majesty are:—

Her Royal Highness Victoria-Adelaide-Mary-Louisa, PRINCESS ROYAL OF ENGLAND AND PRUSSIA, born November 21, 1840, and married to His Royal Highness Frederick William of Prussia, January 25, 1858, and has issue three sons and a daughter.

His Royal Highness Albert-Edward, PRINCE OF WALES, born November 9, 1841; married, March 10, 1863, Alexandra of Denmark (Princess of Wales), born December 1, 1844, and has issue two sons and a daughter; Prince Albert Victor, born January 8, 1864; Prince George Frederick Ernest Albert, born June 3, 1865, and Princess Louise-Victoria-Alexandra Dagmar, born February 20, 1867.

Her Royal Highness Alice-Maud-Mary, born April 25, 1843; married to H. R. H. Prince Frederick Louis of Hesse, July 1, 1862, and has issue three daughters.

His Royal Highness Alfred-Ernest-Albert, Duke of Edinburgh, born August 6, 1844.

Her Royal Highness Helena-Augusta-Victoria, born May 25, 1846; married July 5, 1866, Prince Frederick Christian of Schleswig-Holstein, and has issue one son.

Her Royal Highness Louisa-Caroline-Alberta, born March 18, 1848.

His Royal Highness Arthur-William-Patrick-Albert, born May 1, 1850.

His Royal Highness Leopold-George-Duncan-Albert, born April 7, 1853.

Her Royal Highness Beatrice-Mary-Victoria-Feodore, born April 14, 1857.

George-Frederick-William-Charles, K. G., K. P., G. C. B., G. C. H., G. C. M. G., P. C., D. C. L., DUKE OF CAMBRIDGE, cousin to Her Majesty, born March 29, 1319.

Augusta-Wilhelmina-Louisa, DUCHESS OF CAMBRIDGE, niece of the Landgrave of Hesse and aunt to Her Majesty, born July 25, 1797; married, in 1819, the late Duke of Cambridge.

George-Frederick-Alexander-Charles-Ernest-Augustus, K. G., G. C. H., DUKE OF CUMBERLAND, (ex-King of Hanover), cousin to Her Majesty, born May 27, 1819; married Princess Frederica of Mecklenburg-Strelitz and has issue a son and two daughters.

Augusta-Caroline-Charlotte-Elizabeth-Mary-Sophia-Louisa, daughter of the late Duke of Cambridge and cousin to Her Majesty, born July 19, 1822; married June 23, 1843, to Frederick Grand Duke of Mecklenburg-Strelitz, and has a son.

Mary-Adelaide-Wilhelmina-Elizabeth, daughter of the late Duke of Cambridge and cousin to Her Majesty, born November 27, 1833; married June 12, 1866, Francis Paul, Prince of Teck, and has issue one daughter.

Leopold II., KING OF THE BELGIANS, maternal cousin of the Queen, born April 9, 1835.

GOVERNMENT HOUSE, OTTAWA.

TUESDAY, 29th day of July, 1868.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON the recommendation of the Honorable the Minister of Customs, and in pursuance of the provisions of the 11th Section of Act 31 Vic. Cap. 6, intitled: "An Act respecting the Customs," His Excellency in Council has been pleased to order, and it is hereby ordered, that the following Regulations respecting the Coasting trade of the Dominion, be and the same are hereby adopted and established.

Certified,

WM. H. LEE,
Clerk of the Privy Council.

COASTING REGULATIONS.

1. Vessels and Boats employed solely in the transport of Goods or Passengers from one Port or place to another Port or place within the limits of the Dominion of Canada, shall be deemed to be engaged in the Coasting Trade, and shall be subject to the Regulations governing the same.

2. None but British registered Vessels and Boats, wholly owned by British subjects, can lawfully be engaged in the Coasting Trade of the Dominion of Canada, and the names of such Vessels or Boats and the names of their Ports of Registry, shall be distinctly painted on the Stern of said Vessels or Boats.

3. Such Vessels and Boats, may, without being subject to entry, or clearance as required by law, for Vessels trading between Ports in the Dominion of Canada, as well as with Foreign Ports, carry goods the produce of Canada, or goods duty free, or goods duty paid or passengers from any Ports or places in the Provinces of Ontario and Quebec, to any other Ports or places in the said Provinces, or from any Ports or places in the Province of New Brunswick, to any other Ports or places in the said Province, or from any Ports or places in the Province of Nova Scotia, to any other Ports or places in the said Province, provided always that the owners or masters of such Vessels or Boats, shall take out a license for the season for that purpose from a Collector of Customs in Canada, and that the owners or masters in taking out the said License shall enter into Bonds of $500 conditioned that such Vessels or Boats shall not be employed in the Foreign Trade, and provided also that the Master of every such Vessel or Boat shall keep or cause to be kept, a Cargo Book in the form prescribed by the Customs Department, to be registered by the Collector of Customs who granted the License, in which Book shall be entered at the Port of Lading, an account of all goods taken on board of such Vessel or Boat, stating the description of the packages, the quantities, the descriptions and value of the goods therein, as also of the goods stowed loose, and the names of the respective Shippers and Consignees, as far as any of such particulars shall be known to him: and at the Port of discharge shall be entered in the said Cargo Book, the respective days upon which any such goods shall be delivered out of such Vessel and also the respective times of departure from the Port of Lading and of arrival at the Port of unlading.

4. The Master of any such Vessel or Boat shall produce his License and Cargo Book to any Officer of Customs, whenever the same shall be demanded, and answer all questions put to him, and such Officer of Customs shall be at liberty to note any remark on the Cargo Book which he may deem proper, and if the Cargo Book shall not be kept in the manner hereby required, and the particulars of all Cargo laden and unladen, duly noted therein, the Goods and Vessel shall be forfeited, and the Master shall incur the penalty of $100.

5. Before any Coasting Vessel or Boat shall depart from any Port of Lading in any one of the Provinces of the Dominion of Canada for any other Port in the said Dominion, not in the said Province of departure, an account or Report with a duplicate thereof, in the form or to the effect following, and signed by the Master, shall be delivered to the Collector, who shall retain the duplicate and return the original account or report dated and signed by him: and such account or Report shall be the clearance of the Vessel or Boat for the voyage and the transire or pass for the goods expressed therein, except for goods under Bond or goods liable to Excise or Internal Revenue duty, which shall require the entries and warrants for landing to be signed by the proper Officers as required by Law, and if any such account or Report be false, the Master who signed it shall forfeit the sum of $100.

COASTING REGULATIONS—*Continued.*

6. Within twenty-four hours after the arrival of any Coasting Vessel or Boat at the Port of discharge, which requires a *transire* as above described, and before any goods shall be unladen, the transire with the name of the place or wharf where the lading is to be discharged, noted thereon, shall be delivered to the Collector, who shall note thereon the date of the delivery: and if any of the Goods on board such Coasting Vessel or Boat shall be subject to any customs duty the same shall not be unladen until due entry has been made at the Custom House and a warrant granted for the landing thereof; and if any of the Goods on Board such Vessel or Boat be subject to any duty of Excise or Internal Revenue the same shall not be unladen, without the authority or permission of the proper Officer of Excise; but no entry shall be required at the Custom House for any Goods brought Coastwise the produce of Canada or Goods on which the duties whether of Customs or Excise have already been paid or which are duty free.

7. Vessels and Boats employed in the Coasting Trade and that shall not have taken out a License for carrying Goods, and obtained a Cargo Book as above provided, shall report inwards and outwards at the nearest Port to their place of arrival or destination and require clearances whenever they depart from any port or place within the Dominion of Canada, and in default of their so reporting the Vessel or Cargo, the Master shall in such cases be subject to the penalty of $100 for departing and arriving without due entry inwards or outwards, as the case may be: Provided that when a vessel shall sail from any place where there is no Custom House, or officer of Customs, it shall be sufficient for the carrying out of this regulation that the owner or Master of such Vessel do, as soon afterwards as possible, forward to the nearest Custom House a similar report in duplicate, or lodge the same at the first Port at which he shall touch where there is a Custom House Officer.

8. Goods under removal Bond from one Canadian Port to another Canadian Port, may be carried in any British registered Vessel or Boat, trading Coastwise with a proper License and Cargo Book upon such Goods being properly entered in the Cargo Book and in the account or Transire, in duplicate, the Collector at the Port from which such Goods are removed, being required to forward by Mail, to the Collector of the Port for which the Goods are destined, all the particulars and description of the Goods so forwarded, and the Packages shall be properly marked in Red, as now provided, but no Goods under Bond shall be carried in any Coasting Vessel or Boat until the Master has delivered an account in duplicate or transire to the Collector of Customs at the Port of Lading.

9. No Coasting Vessel or Boat to touch at any Foreign Port unless forced by unavoidable circumstances, and the Master of any Coasting Vessel or Boat which has touched at any Foreign Port, shall declare the same in writing under his own hand, to the Collector or other proper Officer of Customs at the Port or Place in Canada where his Vessel or Boat afterwards first arrives, under a penalty of $100.

10. If any goods are unshipped from any Vessel or Boat arriving Coastwise, or unshipped or water borne to be shipped to be carried Coastwise on Sundays or Holidays, or unless in the presence, or with the authority of the proper Officer of Customs, or unless at such times and places as shall be appointed and approved by him for that purpose; the same shall be forfeited and the Master of the Vessel or Boat shall forfeit the sum of $100.

11. Officers of Customs may board any Coasting Vessel or Boat in any Port or Place, and at any period of the voyage search her, and examine all Goods on board, and demand all the documents which ought to be on board; and the Collector may require such documents to be brought to him for inspection.

12. No Fishing Boat or Boat used in Ferrying under 15 tons burthen, shall, except by Special License or permission, carry any Goods from a Foreign Country, which are liable to duty, under pain of seizure, unless the same (in the case of Ferry Boats) be for the sole use of some passenger then on board.

13. No Goods can be carried in any Coasting Vessel or Boat, except such as are laden to be so carried at some Port or place in Canada, and no Goods shall be taken into or put out of any Coasting Vessel or Boat while on her voyage by River, Lake or Sea.

14. The Transire Coastwise required by these Regulations, may in the case of any Steam Vessel carrying a Purser, be signed by such Purser with the like effect in all respects, and subject to the like penalty on the Purser, and the like forfeiture of the Goods, in case of any untrue statement in the Transire, as if the Transire was signed by the Master; and the word *Master* for the purposes of these Regulations shall be construed as including the Purser of any Steam Vessel; but nothing herein contained shall preclude the Collector or proper Officer of Customs from calling upon the Master of any Steam Vessel to answer all such questions concerning the Vessel, passengers, cargo, and crew, as might be lawfully demanded of him if the report had been made by him, or to exempt the Master from the penalties imposed by these Regulations for failure to answer any such question, or for answering untruly, or to prevent the Master from making such report, if he shall see fit so to do.

15. The Coasting Regulations of the late Province of Canada dated the 12th April, 1861, and all Regulations heretofore existing in the Province of New Brunswick or Nova Scotia in reference to Coasting in any of the said Provinces are hereby repealed.

S. L. TILLEY,

Minister of Customs.

Regulations Governing Traveller's Carriages, &c., Crossing the Frontier.

To ensure uniformity at the frontier ports, in dealing with "carriages of travellers and carriages laden with merchandise," and to afford the utmost facility to parties visiting the Dominion for transient purposes, consistent with the protection of the Revenue, the MINISTER OF CUSTOMS has approved of the following "Regulations and Restrictions."

1st.—Regular Stages and Hacks, when the owners or the drivers are known to the officers, may be allowed to cross the frontier and return within two days, without being required to make an entry at the Custom House, subject only to the ordinary examination, search and inspection.

2nd.—Travellers intending to remain within the Dominion for a longer period than two days, are required in all cases to report and enter their horses, carriages and travelling equipage; and in cases where they do not intend to leave at the same port at which they enter, or are uncertain on that point, they must deposit with the Collector the full amount of duty on such horses, carriages and other dutiable articles, to be returned only on their furnishing satisfactory evidence that the same articles have been returned unchanged to the United States. Travellers intending to leave at the Port of Entry, may be allowed to enter as above, and in lieu of cash to give a Bond, with an approved resident surety, covering the amouut of duty, and with the additional condition that such Bond shall be enforced if the time specified therein be exceeded.

3rd.—The time to be allowed travellers in either case shall not exceed one calendar month; and if that term be exceeded, the entries shall be considered *bonâ fide* entries for duty, and be included in the accounts of the Port.

4th.—All moneys received by Collectors on deposit, under the above Regulations, shall be, if possible, deposited *ad interim* in a Bank, in the Collector's name; and if there is no Bank available, then in some other place of security under the Collector's control; and a separate account of the receipt and disposal of such deposits shall be sent quarterly to this Department.

5th.—The entry in each case should contain such a description of the horses, carriages, &c., as would enable the Collector or other Officer to identify them on their leaving the Dominion; and a copy shall be furnished the owner or other person making such entry, which shall be his permit for travelling in the Country.

PRACTICE COURT AND CHAMBERS.

One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said Law Courts. Chambers are held each day, and by a recent order, daily in Chancery, by T. W. Taylor, Esq., the Judges' Secretary, in Common Law, and by one of the Judges of the said courts, for such business relating to suits therein as may be transacted by a single Judge out of court. *Clerk, Common Law*—William B. Heward. *Reporter Common Law Chambers*—Henry O'Brien. *Reporter Chancery Chambers*—C. W. Cooper.

HEIR AND DEVISEE COURT.

Commissioners—The Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Ontario, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

COUNTY COURTS.

Presided over by a resident Judge in each County. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties, or signature of the defendant to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

SURROGATE COURTS.

The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Surrogate Clerk*—Sir J. L. Robinson, Bart.

COURTS OF QUARTER SESSIONS.

Chairman, the County Judge in each County, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his County four times a year for trials by Jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their Jurisdiction.

INSOLVENT DEBTORS' COURTS.

By the "Insolvent Acts of 1864 and 1865," 26 and 28 Victoria, cap. 57, and 29 Vic., cap. 18, provision is made "for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud. In the Province of Quebec this enactment applies to traders only; in Ontario to all persons, whether traders or non-traders. In these Courts the County Court Judge in each County presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated by the "Board of Trade at any place, or the council thereof, within the county or district adjacent thereto in which there is no Board of Trade." This important statute is proving a great boon to the community in enabling parties, who from unavoidable circumstances find themselves paralysed by hopeless liability, to obtain relief, and recommence business.

DIVISION COURTS.

For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal

TERMS OF THE COURTS.

Appeal Terms commence on the fourth Thursday next after Hilary, Easter and Michaelmas Terms.

Law Terms—Hilary begins first Monday in February, and ends Saturday of the following week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November, and ends Saturday of the second week thereafter. By the Act 24 and 30 Vict., cap. 40, Trinity Term, hitherto commencing on the Monday after 21st August, is abolished; but the same statute gives power to the Court of Queen's Bench and Common Pleas, at their discretion, to hold sittings in *banc* in time of vacation (except long vacation), by virtue of a rule or order of the court, respectively, to be made in or out of the term for the hearing of such special cases or rules for new trials, as shall be named in a list to be attached to any such rule or order; and for giving of judgments in cases previously argued; and for disposing of such other business of the Court, as in its discretion it shall see fit. Notice of such rules to be given in form and manner prescribed by the act, six clear days before the day appointed. Long vacation extends from 1st July to 21st August.

Court of Chancery—This Court sits every week, except during the Christmas vacation from the 24th December to the 6th January, and the long vacation from the 1st July to 21st August, on Mondays for hearings, on Tuesdays for motions, and on Wednesdays for motions for decrees, and on the other days upon any adjourned motions, &c., from the regular days.

County Court Terms commence on the first Monday in January, April, July and October, and end the following Saturday.

CIRCUITS OF THE COURTS.

Law Circuits.—Courts of Assize and Nisi Prius, and of Oyer and Terminer and General Gaol Delivery, shall be held twice a year in each County or union of Counties, in the vacation between Hilary and Easter Terms, and between that period of the vacation after the 21st August and Michaelmas Term, except in the County of the City of Toronto and the County of York, in each of which counties there shall be a third such Court in every year, in the vacation between Michaelmas and Hilary Terms. There are six Circuits, as follows, viz.:—The *Eastern:* Pembroke, Perth, Brockville, Ottawa, Kingston, Cornwall, L'Orignal. *Midland:* Napanee, Belleville, Cobourg, Whitby, Peterboro', Lindsay, Picton. *Niagara:* Milton, Barrie, Hamilton, Welland, St. Catharines, Owen Sound. *Oxford:* Guelph, Woodstock, Berlin, Stratford, Brantford, Cayuga, Simcoe. *Western:* Walkerton, Goderich, Sarnia, London, St. Thomas, Chatham, Sandwich. *Home:* Counties of York and Peel. The Courts in each Circuit shall be presided over by one of the Chief Justices or Judges of the Superior Courts, or in their absence, by some one Judge of a County Court, or some one of Her Majesty's Counsel learned in the law, requested by any one of the Chief Justices or Judges of the Superior Courts to act in that behalf.

Chancery Sittings.—For the Examination of Witnesses and Hearing Causes, are held in the Spring and Fall of each year, as follows:—Toronto, Goderich, Stratford, Sarnia, Sandwich, Chatham, London, Woodstock, Simcoe, Guelph, Brantford, St. Catharines, Hamilton, Whitby, Cobourg, Barrie, Owen Sound, Kingston, Brockville, Cornwall, Ottawa, Belleville, Peterboro', Lindsay. The Courts in each Circuit are presided over by the Chancellor or one of the Vice-Chancellors, or by any one of Her Majesty's Counsel learned in the law, requested by the Chancellor or one of the Vice-Chancellors to act in that behalf.

County Court and Quarter Sessions Sittings.—For the trial of issues of fact, and the assessment of damages, on the second Tuesday in March, June, September and December in each year. The City Sittings take place on the First Tuesday of the same months.

Inspection Branch—Arthur Woodgate, Nova Scotia Division, Halifax; John McMillan, New Brunswick Division, Fredericton; W. G. Sheppard. Quebec Division, Quebec; E. F. King, Montreal Division, Montreal; M. Sweetnam, Kingston Division, Kingston; John Dewe, Toronto Division, Toronto; G. E. Griffin, London Division, London.

LETTER RATES.

Letters posted in Canada addressed to any place within the Dominion pass, if pre-paid, for 3 cents per ½oz., but if posted unpaid such letters are charged 5 cents per ½oz.

On letters to Prince Edward's Island, the rate is 3 cents per ½oz., if prepaid, 5 cents if unpaid.

The rate on Letters to the United Kingdom is, by Canadian Packet, sailing from Quebec, Portland, or Halifax,

Not exceeding ½oz..... 12½ cents.
Exceeding " and not exceeding 1 oz... 25 "
and so on, increasing one rate of postage for each additional half ounce.

And by Cunard Packet, 15 cents per ½oz, &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on Letters for the United States is 6 cents per ½ oz.

The rate on Letters to Cuba is 10 cents per ½oz.

United States Letters 6 cents, if prepaid, 10 cents if unpaid.

The rate of postage on letters to British Columbia and Vancouver's Island is 10 cents per ½oz., which must be prepaid. An additional charge is made on these letters on delivery, for sea postage on the Pacific side. Newspapers 2 cents each, Books 4 cents per 4 oz.

Red River Letters 6 cents per ½oz; newspapers 2 cents each, or commuted rate if from Red River to regular subscribers in Canada.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, *via* Derry on Friday, sailing to Quebec in summer and Portland in winter, by which the postage rate is 6d. stg. per ½ oz.; and a Cunard Packet every Saturday, *via* Cork on Sunday, bringing Mails for Canada to New York, by which the postage rate to Canada is 7d. stg. per ½ oz.

A Canadian Packet leaves Liverpool every alternate Saturday for Halifax, calling at Queenstown *en route*. Postage 6d. stg. per ½ oz., same as by Canadian Packet to Quebec or Portland.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

WEST INDIES VIA NEW YORK.

West Indies (British) letters 10 cents per ½ oz.; newspapers 2 cents each. (Foreign) letters, 22 cents per ½ oz.; newspapers 3 cents each. Books (British only) 2 cents per 4 oz.

Letters, &c., prepaid for transmission, *via* New York, are forwarded direct on New York with every mail made up for that Post Office; whence West Indian mails are despatched as follows:

For Havana and the West Indies, *via* Havana, every Thursday afternoon.

For St. Thomas, the West Indies, and Brazil, on the 23rd of every month.

Letters for the West Indies, British and Foreign, are also sent *via* Halifax and Bermuda; postage 12 cents per ½ oz.; newspapers 2 cents each.

REGISTRATION OF LETTERS.

Persons posting letters containing value, should be careful to require them to be registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America ..... 2 cents.
On Letters for the United States..... 5 "
On Letters for the United Kingdom ..... 8 "
On Letters for British Colonies or Possessions, sent *via* England.....25 "
On Letters to France and other Foreign Countries, *via* France, an amount equal to the postage rate.
On parcels, patterns or samples, in Canada, 5 cents.
On book packets and newspapers to United Kingdom, 8 cents.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

BOOK POST WITH GREAT BRITAIN, BY CANADIAN PACKET FROM QUEBEC OR HALIFAX.

A Packet weighing not more than 4 oz..... 7 cents
Above 4 oz. but not exceeding 8 oz..... 12½ "
" 8 oz. " " 12 oz..... 19 "
" 12 oz. " " 1 lb..... 25 "
and so on, adding 7 cents for every additional 4 oz.

BY CUNARD PACKET FROM NEW YORK.

A Packet weighing not more than 4 oz..... 9 cents
Above 4 oz. but not exceeding 8 oz..... 17 "
" 8 oz. " " 12 oz..... 25 "
" 12 oz. " " 1 lb..... 33 "
and so on, adding 9 cents for every additional 4 oz.

BOOK POST RATES BETWEEN CANADA, FRANCE, ITALY, GERMAN STATES AND NETHERLANDS.

German States	6	13	25	50	75	100
Netherlands	5	10	17	34	50	67

These rates must invariably be *prepaid* on transmission from Canada. Photographs, *provided they they are not upon glass or in cases containing glass*, may be forwarded to Great Britain, etc., at the *Book rate of postage*. Book Packets addressed to the United Kingdom may be registered on payment of the ordinary registration fee, viz., 8 cents in addition to the postage.

All book packets must be open at *both ends* or *both sides* to allow the inspection of the contents.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 12½ cents per 8 oz. (with 5 cents additional if registered).

One cent per oz., payable in advance by Postage Stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether *sealed* or *unsealed* are liable to letter postage), Prices Current, Hand Bills, and other printed Matter of a like character, and on books, bound or unbound, when posted at a Canadian Post Office, and addressed to any place in the Dominion of Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is *two cents each*, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office, to be returned to the senders.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, *if paid quarterly in advance* by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office :

For a paper published 6 times a week, 30 cts. per qr.
" " 3 " 15 " "
" " 2 " 10 " "
" " 1 " 5 " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 2 cents each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free

Newspapers from England by the Cunard Packet Mails are charged 2 cents each for delivery. (This is the American transit charge).

United States Newspapers brought by Mail into Canada, to regular subscribers, are charged one cent each on delivery, transient papers 2 cents each.

PERIODICAL PUBLICATIONS.

The rate on all Periodicals other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, is one cent per 4 oz. weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

After the 31st December, 1868, no periodicals whatever, except exchanges, (*i. e.* periodicals passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, or Newfoundand) will be entitled to exemption from postage.

Transient Periodical matter posted in Canada must in all cases be prepaid by postage stamp.

The above rate will be payable on delivery on all periodical matter received from the United States, except that Canadian editors may receive exchange periodicals from the United States free of Canadian postage.

Periodicals, printed and published in Canada, may be posted addressed to any place in the United Kingdom by Canadian packet, on prepayment by postage stamp of two cents each number.

No package of periodicals can be sent through the post, if it exceed 4 lb. in weight.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Patterns or samples of merchandise and goods for sale, not exceeding 24 oz. in weight, may be posted in Canada to be forwarded to any place within the Dominion, on prepayment by postage stamp of a rate of 1 cent per ounce, under the following regulations :

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened ; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended ; also a trade mark and numbers, and the price of the article enclosed ; *inside*, there must be no enclosures but the samples or patterns themselves ; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the packet, at the option of the sender.

Any sample or pattern packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent per ounce is to be prepaid by postage stamp, and if such rate be not fully pre-paid by the stamps affixed, the packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of five cents in addition to the postage rate, and provided such packets be duly handed in to the post office for registration.

No packet of samples or patterns must exceed 24 ounces.

These regulations apply only to the transmission of Packets or samples and patterns within the Dominion of Canada, and will not in any manner interfere with the regulations governing the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends namely, France, Belgium, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Colonies, with the U.S. or with other foreign countries than those above named.

Book and newspaper manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between the United Kingdom, France, Italy, German States, Netherlands, Portugal, Switzerland, and Denmark, by the Canadian Packet Mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number and price of the article.

Any infringment of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post-office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns of articles of cutlery, &c., has been recinded: and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal-tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post-office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed *via* France.

PATTERNS, LIMIT OF SIZE AND WEIGHT.

The limits of weight and size are as follows:

If for Canada, 24 oz.; the United Kingdom, 24 oz; France, 36 oz.; Germany, 8 oz.; the Kingdom of Italy 36 oz.; Belgium, 8 oz.; the Netherlands, 16 oz.; Portugal, 16 oz.; the Azores, 16 oz.; Madeira, 16 oz; Denmark, 48 oz.; Switzerland, 48 oz.

If for Canada or the United Kingdom, 24 inches in length and 12 inches in breadth or depth. If for France, Portugal, the Azores, or Madeira, 18 inches in length and 12 inches in breadth or depth. If for Germany, the Kingdom of Italy, Belgium, the Netherlands, Denmark; or Switzerland, 24 inches in length and 12 inches in breadth or depth.

Any infringement of the conditions laid down as above will render the package liable to be treated and charged as a letter.

Bags entirely closed, even though they may be transparent, must not be used for the transmission of seeds to foreign parts.

No prints or printed matter will be allowed to pass by book post between the United Kingdon and Canada unless printed on paper, parchment or vellum.

MONEY ORDERS IN ONTARIO AND QUEBEC.

All the Money Order Post Offices in Ontario, Quebec and New Brunswick are authorized to draw Money Orders on each other for any sum up to $100, and for as many orders of $100 each as the Applicant may require, upon the following terms, viz.:—in Ontario and Quebec,

On Orders up to		$10	5	cents.
Over $10 and up to		$20	10	"
" 20	"	40	20	"
" 40	"	60	30	"
" 60	"	80	40	"
" 80	"	100	50	"

In New Brunswick, the rate of commission is 5c. for each $10 or fraction thereof.

MONEY ORDERS ON THE UNITED KINGDOM.

The Money Order Offices throughout the Dominion also draw upon all the Money Order Offices in England, Ireland and Scotland, and the Channel Islands, for any sum up to £10 sterling, and grant as many Orders for £10 sterling each as may be needed to make up the amount to be remitted. The terms are as under:—

On Orders up to	£2		$0	25
" over	£2 and up to	£5	0	50
" over	£5 "	£7	0	75
" over	£7 "	£10	1	00

MONEY ORDERS ON THE LOWER PROVINCES.

The Money Order Offices in Ontario, Quebec and New Brunswick, draw also upon the Money Order Offices in Nova Scotia, Prince Edward Island and Newfoundland. The Orders, like those of the United Kingdom, are made payable in sterling money, and for sums up to £10 sterling. The terms are:—

For Orders up to	£5	25 cents.
" over	£5 and up to £10	50 "

The Money Order Post Offices are furnished with Lists of all the Money Order Offices in the United Kingdom, Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland; and the Postmasters are instructed to afford every information in their power, in respect of the places upon which they draw, together with any other information relating to such issues as the intending Remitters may desire.

POST OFFICE SAVINGS BANKS.

The Post Office Savings Banks, established by statute in the last session of Parliament, commenced operations in Ontario and Quebec on the 1st April, 1868.

The direct security of the Dominion is given by the statute for all deposits made.

At each Savings Bank Post Office the regulations may be read by the public, giving full information with respect to the mode of depositing and withdrawing money, and these regulations are printed on the cover of the pass book supplied to each depositor.

Any person may have a deposit account, and deposits are received daily during the ordinary hours of Post Office business, of any number of dollars, from $1 up to $300, the total amount which can be received from a depositor in any one year, except in cases to be specially authorized by the Postmaster General.

The Postmasters of Savings Banks will act as agents for the receipts of the money deposited for transmission to the Postmaster General, and for the payment by the Postmaster General of money withdrawn by depositors.

Each depositor is supplied with a pass book, and the sums paid in, or withdrawn, are entered therein by the Postmaster receiving or paying the same. In addition, a direct receipt for each amount paid in, is sent to the depositor from the Postmaster General, and the Postmaster General will issue a cheque, payable at any Post Office Savings Bank desired, for any sum withdrawn.

Every depositor's account is thus kept with the Postmaster General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices which at the time may best suit his convenience, and may exercise the same choice in drawing out money, subject only to the obligation of producing the pass book, in proof of identity—whenever paying or drawing out money.

Interest at the rate of 4 per cent. per annum is allowed on deposits lying in the ordinary deposit accounts, but when a depositor has $100 deposited, he or she may request the Postmaster General to transfer this sum to a special account, and will then receive a certificate of such special $100 deposit, bearing interest at 5 per cent per annum.

Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

No charge will be made to depositors on paying in, or drawing out money, nor for postage on communications with the Postmaster General in relation thereto.

The Postmaster General will be always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to the Post Office Savings Bank matters.

Additional Post Offices will from time to time be authorized to act as Savings Bank agencies.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 2 cents for Newspapers; 2 cents for Prices Current and periodicals for the United Kingdom; 3 cents for ordinary Dominion Letters; 6 cents for United States rate; 12½ cents for Canadian Packet, and 15 cents for Cunard Packet.

PENAL CLAUSES.

To steal, embezzle, secrete or destroy any post letter, shall be felony; punishable in the discretion of the court by imprisonment in the Penitentiary, for not less than three nor more than five years; unless such post letter contains any chattel, money or valuable security, in which case the offence shall be punishable by imprisonment in the Penitentiary for life, or for a period not less than five years.

To steal a post letter bag, or a post letter from a post letter bag, or a post letter from any post office, or from any officer or person employed in the Canada post office, or from a mail—or to stop a mail with intent to rob or search the same—shall be felony; punishable by imprisonment in the Penitentiary for life, or for a period not less than five years.

To open unlawfully any post letter bag—or unlawfully to take any letter out of such bag—shall be felony; punishable by imprisonment in said Penitentiary for five years.

To steal, embezzle or secrete any parcel sent by parcel post, or any article contained in any such parcel, shall be felony; punishable by imprisonment in the Penitentiary for a period of not less than three years.

To receive any post letter, or post letter bag or any chattel, money or valuable security, parcel or other thing, the stealing, taking, secreting or embezzling whereof is hereby made felony, knowing the same to have been feloniously stolen, taken, secreted or embezzled, shall be felony; punishable by imprisonment in the Penitentiary for any term not less than five years—and the offender may be indicted and convicted either as an accessory after the fact or for a substantive felony, and in the latter case whether the principal felon hath or hath not been previously convicted, or is or is not amenable to justice. And however such receiver be convicted, the offender shall be punishable as aforesaid.

To forge, counterfeit or imitate any postage stamp issued or used under the authority of this act, or by or under the authority of the government or proper authority of the United Kingdom, or of any British North American Province, or of any Foreign Country,—or knowingly to use any such forged, counterfeited or imitated stamp,—or to engrave, cut, sink or make any plate, die, or other thing whereby to forge, counterfeit or imitate such stamp or any part or portion thereof,—or to have possession of any such plate, die or other thing as aforesaid, except by the permission in writing of the Postmaster General, or of some officer or person who, under regulations made in that behalf, may lawfully grant such permission,—or to forge, counterfeit or unlawfully imitate, use or affix, to or upon any letter or packet, any stamp, signature, initials or other mark or sign purporting that such letter or packet ought to pass free of postage, or at a lower rate of postage, or that the postage thereon, or any part thereof, hath been prepaid or ought to be paid by or charged to any person, department or party whomsoever, shall be felony; punishable by imprisonment in the Penitentiary for life, or for a period not less than five years, and to such felony all the provisions of any Act respecting Forgery shall apply as if such offence were made felony under that act, in so far as the provisions thereof are not inconsistent with this act, and the accessories to any such offence shall be punishable accordingly.

To forge, counterfeit or imitate any post office money order, or advice of such money order, or post office savings bank depositor's book, or authority of the Postmaster General for repayment of a post office savings bank deposit, or any part thereof—or any signature or writing in or upon any post office money order, money order advice, post office savings bank depositor's book, or authority of Postmaster General for re-payment of a post office savings bank deposit, or any part thereof, with intent to defraud, shall be a felony; punishable by imprisonment in the penitentiary for any term not less than two years and not exceeding seven years, and the accessories to any such offence shall be punishable accordingly.

To enclose in or with any letter, packet or other mailable matter sent by post, or to put into any post office any explosive, dangerous or destructive substance or liquid, or any matter or thing likely to injure any letter or other mailable matter, or the person of any officer or servant of the post office, shall be a misdemeanour, unless such offence is or shall be by law constituted a crime of greater magnitude.

To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the parcel post, or in a packet of samples or patterns posted to pass at the rate of postage applicable to samples and patterns, or to inclose a letter or any writing to serve the purpose of a letter, or to enclose any thing in a newspaper posted to pass as a newspaper, at the rate of postage applicable to newspapers (except in the case of the accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers), or to enclose a letter in any mail matter sent by

post not being a letter, shall in each case be an offence punishable by a penalty of not less than ten and not exceeding forty dollars in each case.

To remove, with fraudulent intent, from any letter, newspaper, or other mailable matter, sent by post, any postage stamp which shall have been affixed thereon, or wilfully, with intent aforesaid, remove from any postage stamp which shall have been previously used, any mark which shall have been made thereon at any post office, shall be a misdemeanor.

It shall not be lawful for any person other than a postmaster to exercise the business of selling postage stamps or stamped envelopes to the public, unless duly licensed so to do by the Postmaster General, and under such conditions as he may prescribe; and any person who shall violate this provision by selling postage stamps or stamped envelopes to the public without a license from the Postmaster General, shall, on conviction before a Justice of the Peace, incur a penalty of not exceeding forty dollars for each offence.

If any person wilfully or maliciouely injures or destroys any street letter-box, pillar-box, or other receptacle established by authority of the Postmaster General for the deposit of letters or other mailable matter, such person shall, on conviction, be deemed guilty of a misdemeanor, punishable by fine or imprisonment, or both, in the discretion of the court before which the offender is convicted; and every person who aids, abets, counsels or procures the commission of this offence, shall be guilty of a misdemeanor, and be indictable and punishable as a principal offender.

If any person uses, or attempts to use, in prepayment of postage on any letter or mailable matter posted in this Dominion, any postage stamp which has been before used for a like purpose, such person shall be subject to a penalty of not less than ten and not exceeding forty dollars for every such offence, and the letter or other mailable matter on which such stamp has been so improperly used may be detained, or, in the discretion of the Postmaster General, forwarded to its destination, charged with double postage.

SUGGESTIONS TO THE PUBLIC.

Facility will be given to the Post Office in the discharge of its daily duties, and greater security afforded to the Public, by careful attention to the following recommendations:

Post all letters and newspapers, &c., as early as practicable, especially when sent in large numbers.

When a number of newspapers are addressed to the same office, put them up in one parcel.

When a number of circulars are posted, tie them up in a bundle, with the addresses all in one direction.

Address letters, papers, &c., in a legible and complete manner, always giving the name of the Post Office; and if there be more than one Post Office of that name, the name of the county in which situated. In case of letters going abroad, the name of the country as well as of the town and city should be given in full. Letters for example, if intended for London, England, if simply addressed "London," would be forwarded to London, Ontario, and thus be delayed.

Should it be desired to send a letter or newspaper by any particular line of Packets, or by any particular route, the special address should be clearly written *above* the ordinary direction as "By Canadian Packet."

See that every letter, newspaper, or other packet sent by post, is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail bag, is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment or some other material which will not readily tear or break.

Fasten the covers of newspapers firmly, so as to prevent them from slipping out.

When dropping a letter or newspaper into a letter box, always see that the packet falls into the box, and does not stick in its passage.

Never seal letters for the East and West Indies and other hot climates with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax and the adhesion of the letters to each other. In all such cases use either wafers or gum and advise your correspondents in the country referred to, to do the same.

Never send money or other articles of value through the Post Office, except either by means of money-order or in a registered letter. Carefully secure every letter or packet containing money or value, first with gum and afterwards with good sealing-wax, on which make the clear impression of a seal.

On posting a registered letter or packet always obtain a receipt for the same at the office where posted.

When letters or papers are delayed or missing, at once communicate the fact to the Postmaster General or to the Inspector of the division in which is situated the Post Office at which the delayed or missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted, and the day and hour on which posted; the name of the person by whom posted, and the name of the person by whom received at the office. In the case of a delayed letter or paper send the cover or wrapper in an entire state in order that the place of delay may be ascertained by an examination of the post marks. State also the office at which posted, and the day and hour on which posted.

Trouble and loss occasionally arise out of the carelessness or dishonesty of parties employed in the Post Office service; yet instances are not wanting in which it has been shown, to the satisfaction even of the complainants, that the fault at first attributed to the Post Office, in truth rested in other quarters. Thefts by private hands, although very difficult of proof, have not unfrequently been brought to light; and it is greatly to be desired that those who suffer loss, should, in the first instance, and while the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the lost letters or papers, and lose no time in communicating this information to the Inspector. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Department or not.

The Post Office is a Department which admits of constant improvement and expansion. The public, by sending to the Postmaster General, clear and correct information respecting faulty arrangements, may materially benefit the service. It must be remembered, however, that changes in machinery so extensive and intricate as that of the Post Office, must be made cautiously and with much previous consideration.

Time is generally required to carry out any material change in postal arrangements; for even when decided upon, old contracts, requiring notice of termination, may have to be got rid of, and tenders for new contracts invited by public advertisement, before the decision can take effect.

V. R.

POST OFFICE SAVINGS BANKS—CANADA.

1.—The following Post Office Savings Banks are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

2.—The direct security of the Dominion is given by the Statute for all deposits made.

3.—Any person may have a deposit account, and may deposit yearly any number of dollars, from $1 up to $300, or more with the permission of the Postmaster General.

4.—Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

5.—As respects children under ten years of age, money may be deposited:

Firstly—By a parent or friend as Trustee for the child, in which case the deposits can be withdrawn by the Trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both Trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

6.—A depositor in any one of the Savings Bank Post Offices may continue his deposits at any other of such offices without notice or change of Pass-Book, and can withdraw his money at that Savings Bank Office, which is most convenient to him. For instance, if he makes his first deposit at the Savings Bank at Cobourg, he may make further deposits at, or withdraw his money through, the Post Office Bank at Collingwood or Quebec, Sarnia, Brockville, or any place which may be convenient to him, whether he continue to reside at Cobourg or remove to some other place.

7.—Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

8.—Every depositor's account is kept in the Postmaster General's Office in Ottawa, and, in addition to the Postmaster's receipt in the Pass Book, a *direct acknowledgment from the Postmaster General for each sum paid in* is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he should apply immediately to the Postmaster General, by letter, being careful to give his address, and if necessary renew his application until he receives a satisfactory reply.

9.—When a depositor wishes to withdraw money, he can do so by applying to the Postmaster General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

10.—Interest at the rate of 4 per cent. per annum is allowed on deposits in the ordinary Pass Book deposit account, and the interest is added to the principal on the 30th June in each year.

SPECIAL DEPOSIT ACCOUNT.

11.—Any depositor who has $100 at his credit in his Pass Book, or ordinary account, may request the Postmaster General to transfer that sum to a special account, and will then receive from the Postmaster General a certificate of special deposit for each $100 so transferred. These certificates bear 5 per cent. interest, and are redeemable on such previous notice as may be thereon expressed. When repayment is required, the $100 will be repaid to the depositor at any Savings Bank Post Office which he may name. The interest on certificates of special deposit is placed to the depositor's credit in his ordinary Pass Book Account, and becomes principal in that account, on the 30th June in each year.

12.—Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

13.—No charge is made to depositors on paying in or drawing out money, nor for Pass Books, nor for postage on communications with the Postmaster General in relation to their deposits.

14.—The Postmaster General is always ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank business.

15.—A full statement of the Regulations of the Post Office Savings Bank may be seen at any of the Post Offices named in the following List:

AMERICAN HOUSE,

MONTREAL,

C. S. BROWNE, PROPRIETOR.

THIS WELL KNOWN HOTEL HAS BEEN ENLARGED BY THE ADDITION OF THAT LARGE AND COMMODIOUS HOUSE KNOWN AS THE "EXCHANGE HOTEL."

The Whole has Undergone Thorough Repairs,

AND BEEN NEWLY FURNISHED.

The house fronts on Joseph Street, which is a continuation of Notre Dame, and is but 4 doors from McGill Street, is near Great St, James, St. Paul, and all the principal business streets, of the City. Being very centrally located, with regard to all places of interest about town, it cannot fail to commend itself to parties travelling either on business or for pleasure. In making the repairs, the Proprietor has taken great pains to provide

Every Comfort for his Guests,

And has fitted the House up with all the modern improvements and requirements, for A FIRST CLASS HOTEL, including Gas in every Room in the House Hot and Cold Baths, etc., etc. And the Proprietor feels that he can offer to his guests accommodations that cannot fail to give satisfaction.

☞ Porters always in attendance at the Depot and Steamboat Landings with Omnibuses to the House.

EXPLANATION OF THE TABLE.—The first column gives the quoted Premium on Gold, and means that so many additional cents on the dollar or dollars on the hundred in Greenbacks are required to pay for one in specie. The second column shows the corresponding discount, or number of cents which must be taken off the Dollar Greenback to give its value in specie. The third column shows the specie value of the Dollar Greenback, corresponding to the quotations of either of the other columns. The fourth column shows the Greenback value of the specie dollar, corresponding to the quotations of either of the two first columns.

TO REDUCE STERLING INTO CURRENCY.

To reduce Currency into dollars and cents.

Reduce the sum to sixpences, and add a cipher if there be no odd pence in the sum to be reduced; and if there be odd pence, add their equivalent in cents. The result will be the sum in cents.

Example.— Reduce £5 1s. 0d., to dollars and cents.

£5: 1: 0
20

101
2

202 sixpences.
10

2020 cents.

Answer, $20.20.

To reduce Sterling into dollars and cents.

If the value of the sterling money be reckoned at par of exchange, then substitute for every pound sterling £1 4s. 4d., and for every fraction of a pound sterling a similar fraction of £1 4s. 4d. The result in currency reduce by the *currency* table. If the value of the sterling money be calculated at the current rate of exchange, convert into currency as above reckoning the value of the pound sterling at the exchange rate, in lieu of £1 4s. 4d., and the fractions proportionately.

Example.—Reduce £1 15s. sterling to dollars and cents, calculating the pound sterling at par of exchange.

£1 stg. = £1: 4: 4 cy.
10s. = 0: 12: 2
5s. = 0: 6: 1

£2: 2: 7 : cy.,

which is by the first table, $8.51⅓.

Under Secretary of State for Canada.

DOMINION OF CANADA.

EMIGRATION

TO THE

PROVINCE OF ONTARIO.

To Capitalists, Tenant Farmers, Agricultural Laborers, Day Laborers, and all parties desirous of improving their circumstances by Emigrating to a New Country.

Attention is invited to the great advantages presented by the Province of Ontario to various classes of new settlers. Persons living on the interest of their money can easily get 8 per cent on first class security in the Province of Ontario.

Tenant Farmers, with limited capital, can buy and stock a freehold estate in Ontario with the money needed to carry on a small farm in Britain. Good cleared land with a dwelling and barn on it, can be purchased in desirable localities at from 20 to 50 dollars, or £4 to £10 sterling., per acre. Farm hands can readily get work at good wages with their board found.

INDUCEMENTS TO INTENDING EMIGRANTS:

FREE GRANTS OF LAND TO ACTUAL SETTLERS.

LAND GIVEN AWAY TO ALL COMERS over 18 years of age.

A FAMILY OF SEVERAL PERSONS CAN SECURE A LARGE BLOCK OF LAND GRATIS.

The Government of Ontario offers as a Free Grant to any actual settler over 18 years of age, One Hundred Acres of Land in the Free Grant Districts.

THE FREE GRANT LANDS ARE EASY OF ACCESS.

There are Daily Mails between Toronto and the Free Grant Districts.

Parties desirous of fuller information concerning the Province of Ontario, will apply personally, or by letter, to WM. DIXON, Emigrant Agent, 11 Adam Street, Adelphi, London; or to any of the Imperial or Dominion Emigrant Agents in Europe; or to the GRAND TRUNK RAILWAY OFFICES, No. 21 Old Broad Street, London; or to the GREAT WESTERN, OF CANADA, RAILWAY OFFICE, 126 Gresham House, Old Broad Street, London, E. C.; or to the NORTHERN RAILWAY OFFICE, Messrs. CUTBILL, SON & DE LUNGO, No. 13 Gresham Street, London, E. C.; or to the CANADA COMPANY, No. 1 East India Avenue, Leadenhall Street, London; or to ALLAN, BROS. & CO., James Street, Liverpool; JAMES and ALEXANDER ALLAN, Great Clyde Street, Glasgow; ALLAN, BROS. & Co., Foyle Street, Londonderry; by whom Pamphlets, giving detailed information, maps, &c., will be supplied.

Emigrants bound for the Province of Ontario, will take vessel to Quebec, and proceed westward, either by Steamboat or Railway.

By reference to the Map, supplied by Government gratis, any desired point can be selected from which to look for a New Home.
